

## **Offshore Wind & Marine Energy Emergency Response Stakeholders & Contacts Issue 1: October 2013**

The [Offshore Renewable Energy Emergency Forum \(OREEF\)](#) has been established to coordinate emergency preparedness in support of activity arising from the development, construction and operation of renewable energy installations. Participants in OREEF include representation from government organisations, regulators (e.g. HSE, MCA), agencies, emergency services, industry and service providers.

The offshore wind and marine sector comprises a range of stakeholders with responsibilities and interest in emergency preparedness. The following stakeholders and industry partners have been identified by the OREEF working group as having a potential role or interest in the issues relating to emergency preparedness and response. They are intended for information only and the list should not be regarded as exhaustive.
