Professional Development Courses and Workshops

Monday, August 6, 2018

8:00 a.m.–4:00 p.m.

Fundamentals of Standards and Conformity Assessment: Basic Knowledge and Tools for Today's Professional

This high-energy, information-packed course covers the fundamentals of standards, conformity assessment, and the various processes, business models and issues encountered in standards setting and conformity assessment practices. Key concepts covered include the importance of standards, researching standards, the Federal use of standards, and some of the issues and drivers facing today's standards developers and users. The session will include lecture style presentation and interactive exercises. This course is designed to enhance the knowledge of those working with standards and conformity schemes—whether newcomers or seasoned professionals.

Thursday, August 9, 2018

8:00 a.m.–12:00 p.m.

Standardization Professionals Workforce Development: An interactive workshop
