

January 9, 2018

SNMA Members and Supporters:

We are so thrilled that you have chosen San Francisco again to be the site for your Annual Medical Education Conference, March 28-April 1, 2018. While you focus on this year's conference theme, "Embracing Our Diversity: Filling the Gaps and Building the Future," be sure to make opportunities to explore more of our fabulous city.

San Francisco is, in and of itself, a vital learning opportunity and there are myriad attractions within a short distance from your host hotel, the San Francisco Marriott Marquis, from which you can experience the rich diversity of our communities. Stroll over to the San Francisco Museum of Modern Art, the Museum of the African Diaspora, or the Contemporary Jewish Museum, all within two blocks of the hotel. Check out where our historic cable cars turn around at Powell Street - also a short walk away.

San Francisco is one of America's most exciting cities and is rich with traditions of its heritage reflected in the various neighborhoods. We encourage you to enjoy the spectacular scenery, visit the museums, and experience an exhilarating variety of performing arts, discover some of the world's best shopping and savor superb cuisine from every corner of the globe.

Coming to San Francisco again for a return visit? We welcome you with open arms. Never been to San Francisco? Plan it; make it happen. I promise, you won't be disappointed.

Sincerely,

A handwritten signature in black ink, reading "Joe D'Alessandro". The signature is written in a cursive, flowing style.

Joe D'Alessandro
