

Black Swan Research Annual Subscription Service

Our Mission

Black Swan Research coverage is a compilation of some of the best independent providers of Micro Cap Research. The service focuses on micro-cap companies that are typically not followed by Wall Street analysts. In addition our subscription research service includes ValuEngine research on over 5,000 stocks with stock valuations, Buy/Hold/Sell recommendations, and forecasted target prices. Our partner analysts seek to identify those companies that they believe will be out performers in the short and medium term, are under-valued and positioned for growth. Our goal is to provide the best of high quality independent research for the micro-cap portfolio. Some Research Reports and Updates have been posted to the website and included in the Black Swan Connection and are otherwise publicly available. Black Swan Research coverage will also include Reports and Updates from our partner analysts who have not made the Reports public and are available by subscription only.

Our Research Providers

We have chosen from the best of independent, experienced and respected Research providers. Most of whom we have had a long standing relationships with.

Check out their individual profiles and companies they are currently covering.

CATALYST RESEARCH MANAGEMENT GROUP

Catalyst Research Management Group is an Oregon Registered Investment Adviser which provides business consulting and advisory services, equity research and reports, subscription services, and supervision of asset management subadvisers to its clients. (I would mention Marc's name here...people recognize him in the space).
