TAKEAWAYS FROM 2017 URGENT CARE FALL CONFERENCE ATTENDEES

Attended: Clinical Pre-Conference and main conference sessions in urgent care essentials. First time attendee and new member of UCAOA.

“As a new nurse practitioner and urgent care provider, my takeaway is how much I needed this conference, for all the essentials. Being here has given me a chance to be captive and focused.”

Exhibitors

“We’ve noticed that attendees are more innovative than anything. They are open to trends and learning about the necessary tools, they really want to grow the urgent care space. It’s been great.

Attended: Opening General Session on Compliance

“I realized how important compliance is and all the components involved. For example, I know now that we need to get outside audits with our billing company. I didn’t know to do that before today.”
