Testimonials

“Working out with Anthony really helped bring my game to a different level, not only did it help my game it helped me as a person and also the relationship/brotherhood we have off the basketball court and I'm so thankful for! I wouldn't trade it for anything in the world.” –Kavon Stewart, Robert Morris University Point Guard

The I'm Possible Training Program

I'm Possible is a way of training that brings creativity and game like situations to life. This way of training is unlike any other and will challenge you. This way of training is not only challenging but it is also a **PROVEN** way to improve players. We offer the I'm Possible training style because it is so unique it separates us from the pack. Each training session will be tailor made to fit that players needs. We will expose all our players to their weaknesses using this system. I'm Possible training does not see a cone, they see a defender, so imagination is crucial when using this form of training. We will focus on all aspects of your game including:

- Ball handling
- Shooting
- Shooting footwork
- Overall offensive footwork
- Finishing
