

ISRI Hazard Recognition Classes

ISRI offers this free Hazard Recognition Training to the Waste and Recycling Industry as part of OSHA's Susan Harwood Training Grant Program administered by the Occupational Safety and Health Administration (OSHA).

OSHA awards grants to nonprofit organizations on a competitive basis through its Susan Harwood Training Grant Program. Grants are awarded to provide training and education programs for employers and workers on the recognition, avoidance, and prevention of safety and health hazards in their workplaces and to inform workers of their rights and employers of their responsibilities under the Occupational Safety and Health (OSH) Act. Solicitation for the Susan Harwood Grant Program is a function of Congressional budgetary approval and appropriation by the Department of Labor.

This class is free and is relevant to recyclers across all commodities who would like employees to learn more about hazard recognition and mitigation in the operations environment. This includes:

- How to recognize the hazards of and safely work around mobile equipment and other hazards;
- An understanding of the importance of the control of hazardous energy (LOTO);
- Good housekeeping practices;
- How to recognize fire hazards;
- Hazard communication in the workplace; and
- How to do a PPE hazard assessment and the importance of proper PPE;

Those attending the class will also learn what a hazard assessment is and through group work how to build a PPE job hazard assessment.

Upcoming Class Dates

- Wednesday, 18 October: Drury Plaza Hotel Indianapolis Carmel, Indianapolis IN
- Friday, 27 October: Double Tree by Hilton – Jacksonville Riverfront, Jacksonville FL
- Monday, 30 October: Technology Conservation Group facility in Lecanto FL
