Salem, NH June 2011

Dr. Peter Brown joins Horizon Technology as CEO

This summer a long term member of Horizon Technology's Board of Directors, Dr. Peter Brown, was invited to join the company as its' new CEO.

According to Bob and Martha Johnson, co-founders of Horizon, Peter has served on Horizon's Board of Directors since 2003. They felt the experience Pete had gained in strategic planning and leadership roles with other analytical instrument companies would be helpful in accelerating the growth of Horizon. Prior to joining Horizon, Pete served as the General Manager of VG Elemental, a UK based mass spectrometry firm and President/CEO of Leeman Labs Inc., a US based ICP-OES company. "With Pete now on board, I'm excited to have the opportunity to back away from my former administrative role and focus on my passion for new developing new products and working closer with Horizon's customers" says Mr. Johnson.
