Who is AESP?
The Association of Energy Services Professionals (AESP) is the premier organization for professionals in the energy efficiency industry. AESP members have one thing in common – the desire to advance their professional growth and development through acquiring current practical knowledge and building their network in the energy efficiency field.

A nonprofit organization since 1989, AESP is now over 2000 members strong and growing. No other energy-based organization offers such a breadth of innovative educational services, resources and networking opportunities.

We focus on you and your work in:
- Energy Efficiency and DSM
- Evaluation, Measurement & Verification (EM&V)
- Program Design and Implementation
- Marketing and Communications
- Pricing and Demand Response
- Technology, including Smart Grid and EV
- Consumer Behavior
- Energy Policy
- Renewable Energy/Sustainability
- Public/Environmental Benefits

Who joins AESP?
Members are a diverse range of energy professionals including:
- Investor-owned, municipal and cooperative utilities (electric and natural gas)
- Consultants
- Manufacturers and suppliers
- Federal and state government officials
- Public benefits agencies

What’s in it for you?
Through AESP, you can tap into the professional resources that can help you advance your professional goals, including:
- Education
- Industry Resources
- Networking
- Leadership Opportunities
- Speaking Opportunities

Professional Development
Conferences – Throughout the year, AESP brings together industry leaders to share insights, discuss current issues, display the latest technologies and host inventive networking events.

Online Conferences – Half-day, in-depth web-based conferences focus on a single topic and let members come together to learn without the need to travel.

AESP Brown Bags – Interactive webinars discuss current topics, relevant case studies and new tools, technologies and thinking. Webinars are always FREE for members.

Training – AESP courses provide the in-depth level of knowledge you need. Courses include Demand-side Management, Evaluation, Measurement & Verification (EM&V), Marketing, Leadership and Behavior Change. You can also earn CEUs.

Strategies – Our monthly e-magazine fills you in on the latest industry news that you need to know about, as well as member news.

Speaking Opportunities – You have the opportunity to share your insights and knowledge with your fellow peers at AESP’s Brown Bag webinars and conferences.

Join at aesp.org!

Access to Resources

Resource Library – A world of information at your fingertips. Tap into industry reports, past conference presentations, Brown Bag webinars, white papers, issues of Strategies and much more.

Communications and Publications – In addition to the weekly What’s New e-newsletter announcing the latest AESP news, jobs and RFPs, you will also receive our exclusive members-only Strategies e-magazine and AESPecially for Members newsletter.

Networking & Participation

Networking is one of the keys to sustained growth and advancement in any position. AESP embraces this belief and offers numerous and inventive ways to network and help build your energy community:

Geographic Chapters – AESP has geographical chapters located all over the U.S. and Ontario, Canada to serve members at a local level. Chapters organize regular networking events, presentations by guest speakers, mini conferences and much more. Chapters also provide many opportunities to volunteer and take on leadership roles. Get involved today!

Topic Committees – Get involved and join topic committees that are focused on the issues affecting key areas of the industry. Assist with organizing Brown Bag webinars, help shape conference content, write articles and more.

Networking Events – AESP hosts signature networking opportunities at each conference.

Supplier Directory & Member Directory – Find the suppliers you need, and the contacts you seek among our members through our searchable member directories.

Social Media – Have a question to ask or an opinion to share? Join the lively member community in AESP’s social media channels – LinkedIn, Facebook and Twitter – where news is shared, and questions are asked and answered every day.

MEMBERSHIP APPLICATION FORM

Each chapter, per AESP bylaws, is required to charge dues. Please select your individual membership type:

☐ Full Membership
   (National and Chapter included)
   $195 per year*

This entitles you to:
• Member pricing for all local AESP chapter events
• Member pricing for all national AESP events (conferences, online conferences, etc.)
• Full AESP member benefits (free Brown Bag webinars, members-only publications, and access to Resource Library and Member Directory, etc.)

☐ Chapter Membership only
   $45 per year*

This entitles you to member pricing for all local chapter events

Name: ________________________________________
