

## Lifting nations out of poverty is a goal we all share.

### But what's the best way to do it?

**T**he Aspen Network of Development Entrepreneurs (ANDE) is a global network of organizations that propel entrepreneurship in emerging markets as a way to create prosperity for the world's poor.

There are, of course, many worthy approaches to poverty eradication and economic development. But ANDE members share the view that targeted support for small and growing businesses, SGBs, represents the most effective way to create the kinds of jobs that can lift families, and entire nations, out of poverty.

ANDE members support “the missing middle”—the small and growing businesses that are the engines of growth in emerging markets, and have the potential to address critical social and environmental challenges.

#### Why are SGBs so effective in reducing poverty?

SGBs do more than create jobs. They create goods and services that benefit all sectors of society. They create shared prosperity, which is essential to the growth of the middle class. SGBs also create a pro-growth business environment and instill a spirit of entrepreneurship that can transform the economic infrastructure of developing nations. Moreover, they provide a platform for sustained growth that can help emerging economies achieve their long-term economic goals.

#### How does ANDE help?

The ANDE concept is catching on. Launched with 34 members in 2009, ANDE now comprises 260+ active members working in more than 150 countries, while supporting tens of thousands of small business entrepreneurs. In addition to much-needed training and financial resources, ANDE members bring a high level of business expertise and development experience to the fight against global poverty.

ANDE identifies common strategic challenges and opportunities that small business entrepreneurs face and, based on these findings, develops programs and services for our members and the sector as a whole. We are the leading convener and conduit for organizations committed to supporting emerging market entrepreneurship.

ANDE is results oriented. We are dedicated to building a robust evidence base to understand the impact of SGBs and the most effective ways to support them, and work closely with our members to help them to assess their own impact.

Specific program areas include:

- Advocacy and Education
- Funding Opportunities and Resources
- Knowledge Sharing and Networking
- Metrics and Evaluation
- Research
- Training and Talent Development
