President’s Letter

As Americans, we should be thankful for the many contributions made by multiple individuals and for their services to others in making this a better country. Mid-America, the breadbasket of America, is rich in resources and food products—wheat, soybeans and corn; the corn being taller than President Lincoln with his top hat on! This part of the country has also been a producer of beef and pork, sustaining many with these products throughout the country. Of all these important contributions, the greatest has come from the people. We have had presidents, military leaders, scientists, and major contributors in health care from mid-America. Truly, the people of this region best reflect who we are as a nation.

For the past 35 years, this college has been represented on a nationwide stage by one of the finest representatives of this area, Pam Smith. She demonstrates the best of what we are as Americans. Her devotion, sometimes at personal sacrifice, did not go unnoticed. Pam’s sincerity, diligence, perseverance, and vision, coupled with the greatest dependability, are what define her.

Pam has tremendous experience and knowledge of the historical pathway of the college over the past 35 years as she has guided us through the minefields of potential danger. Her successes in the past as well as helping us prepare for our future are due, in part, to her excellent recall and broad knowledge of our history.

As your president, I’ve had the opportunity to interact with many other specialty colleges, state societies, as well as leadership at the state and national level. When new people find out I represent the AOCR, I can guarantee the next statement I hear is “you are so fortunate to have Pam Smith as your executive director!” Our positive reputation throughout the country is because of Pam.

Because of her knowledge, experience and passion for our college, we have requested she remain as a consultant for the next two years during our transition. Pam has masterfully put together an outstanding staff at the AOCR home office and we know this transition will have few interruptions under the leadership of Carol Houston as our new executive director. Carol’s experience with the college is truly a valuable asset that many colleges do not have the benefit to draw upon. She will be supported by Rhonda Boehner, Jessica Roberts, Erin Maulsby, Carly Bohle, and Mary Lentz.

A retirement of this magnitude is always difficult with sadness for our loss yet happiness for all she has done and the knowledge that she and her husband, Mike, can now enjoy life to its fullest. Collectively as a college, we want to thank you Pam for all your contributions, sacrifices, support, and love you have provided to our membership for these past 35 years.

Upcoming Events

Bones and Brain Imaging
October 10-13, 2013
Grapevine, TX
Program Chair: Rocky Saenz, DO
Offering 29 Category 1-A credits

Diagnostic and Interventional Oncologic Imaging
April 28-May 2, 2014
San Diego, CA
Program Chair: Ronald Alexander, DO
Offering 30 Category 1-A credits

Webinars
The AOCR will be offering nine webinars throughout the 2013-2015 CME cycle. Two will be offered during each Annual Convention in the spring and one will be offered during the Mid Year Conference in the fall.
Metastatic Carcinoid Tumor
John Magulick, MD, Kevin Steel, DO

Want to know more? See the full “At The Viewbox” article on the JAOCR website.

NOW OFFERING 1-B CME

The Journal of the American Osteopathic College of Radiology is now an approved AOA Journal and provides two ways to earn 1-B CME.

1. Two credits are awarded to physicians who earn a 70% or higher on a CME quiz which can be found on the AOCR website. The AOCR will report the credits to the AOA on a quarterly basis in March, June, September, and December.

2. Credits will be awarded to authors published in the JAOCR. The amount of credits is determined by the AOA and based on the size of the article.

New AOCR Members

ACTIVE MEMBERS
Joseph Ronsivalle, DO

STUDENT/INTERN MEMBERS
Sara Madsen

RESIDENT MEMBERS
Kelly McArthur, DO

Jared Malie
Viral Patel
Jasleen Saini

New Life Members

Life membership may be granted by the board of directors to any Active or Retired member who has held continuous membership for the immediately preceding ten years and who has reached the age of 65 or who for good and sufficient reason has retired from active practice. The AOCR congratulates the following Life Members:

Steven Brinen, DO
Gary Classen, DO
James Deering, DO
John Farrell, DO
John Frederick, DO

David Gideon, DO
Jeffrey Jackerson, DO
Sean Mullen, DO
Pilar Prabhu, DO
Steven J. Schapman, DO

David D. Spaulding, DO
Gordon D. Stillie, DO
Ronald Weigel, DO
Stanley Zimmelman, DO
**Drs. Willman and Williams Receive Honorary Degree**

Paul Williams, DO, and Michael Willman, DO, were presented with an honorary Doctor of Science in Education degree from A. T. Still University by President Craig Phelps, DO, at ATSU-KCOM graduation ceremonies held in Kirksville, Mo., on May 18. The degree recognizes their long standing service to ATSU-KCOM and the medical profession.

**2013 ACR AMCLC**

AOCR President Fred White, DO, President-elect Wade Wong, DO, Executive Director Pam Smith, and Director of Membership and Postdoctoral Training Carol Houston attended the 2013 ACR Annual Meeting and Chapter Leadership Conference May 4-7. Dr. Wong was selected as candidate to run for the ACR College Nominating Committee and gave a campaign speech.

Speakers issued a collective call to promote the relevancy of radiologists, to proactively advocate for the profession, and to move from a volume-based care model to one premised on quality imaging. According to several speakers, as the profession shifts from a volume-to value-based business model, radiologists need to secure a place at the legislative table.

Keynote speaker, Keith Dreyer, DO, PhD, FACP, argued that in the current health-care environment incentives are guided by productivity levels. However, he noted; if incentives could be tied instead to outcomes, high-quality patient care would become the new goal, and radiologists and ordering physicians could work in closer collaboration.

More information from the meeting including videos and summaries can be found at amclc.acr.org.

**COPT/PTRC Update**

At the most recent meeting of PTRC and COPT updates of the AOA and ACGME merger were provided. The pace is much slower than initially anticipated, but discussions are continuing. Six subspecialties were chosen to meet with the allopathic Residency Review Committee (RRC) counterpart to have additional discussions. Radiology was not one of the six chosen in the first phase. A second phase will be done in the future to include the AOCR. The AOA and ACGME have formed smaller executive committees to meet more frequently with the hope of expediting the negotiations. The ACGME board of directors will meet in June, and the AOA board of trustees will meet in July. The hope is to have the first memorandum of understanding shortly after these meetings.

Many new residency positions in several specialties were approved during the meeting including a radiology residency training program at PHH/Hemet Valley Medical Center in Hemet, Calif. The AOA has been working on their new Performance Based Accreditation System. Our college will be able to provide feedback and suggestions as the process moves forward.

**Attention Residents and Program Directors: New Annual Report Forms**

The resident “Faculty Evaluation” and “Segregated Totals” forms have been converted to online submission on the AOCR website. This was done to provide more ease to the residents and save staff processing time. The “Segregated Totals” form was changed and condensed into 11 general categories to gain a broader representation of procedures. Questions on the “Program Evaluation as Completed by the Resident” were also revised.

The “Program Director Questionnaire” has been updated for 2013. The “Program Statistical Data” form was condensed into a single reporting table, and additional descriptive changes were made throughout the questionnaire.

The forms can be accessed on the AOCR website under the Residency tab—Annual Reports.

Scientific Exhibits Now Online

The Resident Scientific Exhibits are now available online. This new electronic format allows more exposure for the residents and allows all members to view the presentations, not just those who attend the Annual Convention. The exhibits were also available online on the course syllabus thumb drive for those who attended the 2013 Annual Convention.

Click here to view the exhibits.

Awards

Each exhibit is judged and awards are given for the top three scores.

1st Place: Jason Savikko, DO, 3rd yr resident at John Peter Smith Hospital, Fort Worth, TX, for his exhibit titled, Effectiveness of Abscess Irrigation with Dilute Betadine vs. Sterile Saline.

2nd Place: Andre Graves, DO, 3rd yr resident at Franciscan St. James Health, Olympia Fields, IL, for his exhibit titled, Ultrasound Guided Sampling Technique of Thyroid Nodules: Fine Needle Aspiration versus Fine Needle Capillary Sampling.

3rd Place: Jarrod MacFarlane, DO, 3rd yr resident at DMC Osteopathic Division/Huron Valley Sinai Hospital, Commerce, MI, for his exhibit titled, Second Trimester Tubal Ectopic Pregnancy with Anomalous Vascular Supply, Treated Adjunctively with Artery Embolization: An Interventional Radiographic Case Report.

Zach Friess Receives 1st Place for Scientific Exhibit

Congratulations to Zac Friess, DO, who won first place at the 8th Annual Doctor's Hospital Research Day for his poster titled "Aortic Calcific Plaque Burden as a Predictor of Chronic Renal Disease." He won a $500 prize and advanced to the system wide research day where he also received first place.

Dr. Friess is a third year resident at Doctors Hospital West/Ohio Health. His exhibit can be viewed online via the AOI website.

Importance of Governmental Advocacy

Leann Fox
AOA Director, Political Affairs and Advocacy

People ask why advocacy is important in many different ways; does anyone really read my letters, why should I bother, they already know how we feel, they'll hear from someone else, they won't listen because they're a Democrat or Republican. Questions and statements like these are uttered by voters every day. What these questions say is that as overall political issue advocacy increases amongst the general public, the more complicated and partisan - and ultimately frustrating - it can become. However, as health care remains at the forefront of the national political conversation, it is more important than ever for physicians and the patients they treat, to engage in advocacy.

A survey of the national political landscape would tell you that only 3 percent of Congress truly understands what a physician's day-to-day life is really like – of the 535 Members of Congress, only 20 have ever practiced medicine. While lobbyists are well armed with the knowledge and details of health policy, the most powerful tool in a lobbyist's arsenal is you, your story and how these policies affect voters in a state or district. Truthfully, the efficacy of advocacy efforts depends on a number of factors - at least two of which you cannot control, the elected official you are trying to influence and the quality of the opponent and their message.

Persuasion is a complicated art and in politics, where both sides can be 'right' and truthful at the same time, delivering a compelling message is everything. In order to deliver the most compelling message you have to start with the basics and that means knowing your audience. Each elected official maintains a webpage outlining their position on key issues - particularly so called "hot button" issues. Your "target" legislator, and by extension their policy staff, have a voting record which will give you a blueprint for mapping out the type of message you need to deliver. It may not provide the entire picture; however, the congressional record and votes on specific bills provide important background. While your elected official may support a particular issue, they may not co-sponsor a bill or vote in favor of passage because of some underlying reason - for example, how a measure is paid for. This is where expert sources, such as your state or national professional organization, can help you sort through why someone who appears to support an issue you care for voted against it.

Being armed with the issues and motivations of an elected official gives you the knowledge you need, however you still need to develop a relationship with the office – specifically the staff covering health care issues. This individual spends every day working on the issues that affect you and a solid relationship with them will provide you the access you need when important legislation comes up. Beginning a relationship is not a difficult proposition, it requires reaching out to the office regularly – both to ask for support or opposition and to thank them for their stance on an issue. You should also offer to be a resource to the office on health care issues, attend local events the legislator holds - such as town hall meetings, and send letters to the editor in support of votes and work a legislator has done.

You will not always agree with the positions of your legislators, but a cordial working relationship with them is a necessary part of advocacy. Now more than ever, physicians must put past frustrations behind them and engage in advocating for their practices and patients. If you don’t do it, who will?
Fred White, DO, convened the 2013 Annual Meeting of the AOCR board of directors held on Sunday, April 21, at The Westin Beach Resort & Spa in Fort Lauderdale, Fla. The board met with several constituent organizations to receive an update on their activities and projects during the past year and to facilitate future collaboration. The constituents included the American College of Radiology represented by Christopher Ulrich, MD, Council Steering Committee liaison representative, the American Osteopathic Association represented by Norman Vinn, DO, president-elect, AOCR Education Foundation represented by Claire McKay, DO, vice president, and the American Osteopathic Board of Radiology represented by Michael Wilczynski, DO, AOBR secretary-treasurer.

ACR representative Christopher Ullrich, MD, discussed ACR’s legislative efforts and expectations. He reported that the ACR is developing a visible value chain of what radiologists do besides interpretation. He reported on various educational resources available through the ACR. Dr. Ullrich also made a presentation to the AOCR membership on Monday morning.

AOA President-elect Norman Vinn, DO, met with the board to report on the status of negotiations with ACGME to develop a unified accreditation system. The board discussed its concerns regarding the proposed reimbursement cutbacks. Dr. Vinn also addressed the AOCR membership on Monday morning.

Dr. McKay summarized the activities of the AOCR Education Foundation. The Resident Distance Learning Lecture has been increased from six to nine lectures per year and is now designed to offer a comprehensive focused specialty review. The Education Foundation continues to support each AOCR CME activity through a financial grant. All resident members were invited to attend a board preparation workshop at the AOCR Annual Convention sponsored by the AOCR Education Foundation and presented by Drs. Tom Gleason, Rocky Saenz and Michelle Walters. Foundation board members reappointed included Steve Min, DO, and Michelle Walters, DO.

Dr. Wilczynski summarized the overall performance of examination candidates and changes that will be incorporated into the examination process in the future. The recertification examination is computerized and is being offered in conjunction with the AOBR written and oral examinations and no longer will be offered at AOCR CME activities. He reported that the AOBR was honored to be one of four osteopathic certifying boards whose OCC program was accepted by the Centers for Medicare and Medicaid Services (CMS) for their Maintenance of Certification Incentive program in 2012.

In other action, the board approved the proposed five-year budget as recommended by the Finance Committee. The Journal of AOCR has been approved by the AOA to offer CME credit. The 1-B CME credits will be available at no cost to AOCR members. The membership committee presented a proposal to offer intern members and resident members in their first year of residency a complimentary electronic version of the textbook authored by Rocky Saenz, DO, titled, “CT for the Non-Radiologist.” The board approved retaining Pam Smith as a consultant for two years following her retirement.

Wade Wong, DO, was nominated by the AOCR and selected to run for a position on the ACR College Nominating Committee. He was one of six selected to make a presentation at the Annual Meeting and Chapter Leadership Conference (AMCLC) on May 5, 2013. Although he was not elected this year, it is a huge accomplishment to be invited to run for the position.
Radiology Essentials
The Westin Beach Resort and Spa, Fort Lauderdale, FL
April 22-26, 2013

William O’Brien, DO, with Bernard Laya, DO. Dr. O’Brien presented on differentials on brain imaging and spine imaging. Dr. Laya presented on tuberculosis and CNS tumors and infections in children.

Faculty Member David Areman, DO, answering questions after his lectures on blunt abdominal trauma and MDCT angiography of the extremities. Dr. Areman also presented on disaster planning.

Program Chair Les Folio, DO, shown with Jenifer Siegelman, MD, Mahadevappa Mahesh, MS, PhD, and Aaron Sodickson, MD, PhD. Dr. Folio presented on optimizing CT protociling and metastatic tumor assessment. Dr. Siegelman presented on patient safety and radiation stewardship and lung cancer screening. Dr. Mahesh presented on strategic CT radiation dose and preparing for FDA/DOE radiation. Dr. Sodickson presented on technology and does reduction and radiation risk assessment and dose monitoring methods.

Courtney Scher, DO, and Nadine Abi-Jaoudeh, MD, shown after Dr. Scher’s presentation on MSK ultrasound. Dr. Scher also presented on the basics of knee MR and MSK ultrasound. Dr. Abi-Jaoudeh presented elastography for liver disease evaluation, biomarkers and tailored therapies and imaging guidance and fusion in interventional radiology and oncology.

Shown above is the panel discussion for CT optimization and dose reduction with Drs. Siegelman, Folio, Sodickson, and Mahesh. Other panel discussions included legal aspects of subtle findings that turn into trouble, and MSK.

Keith Dryer, DO, PhD, presented on stage 2 meaningful use and ACR and RSNA initiatives

Paul Molina, MD, presented on solitary pulmonary nodule and high resolution chest CT
A special thank you to the following for their support:

- AOCR Education Foundation, Inc.
- Carestream Health, Inc.
- Chicago College of Osteopathic Medicine and the Office of Development and Alumni Relations at Midwestern University
- Dr. Paul Chase’s Children and Grandchildren
- Hahnemann University Hospital
- Lippincot Williams & Wilkins, Inc.
- Medweb
- Michigan Osteopathic Association
- Orion HealthCorp, Inc.

The AOCR sponsored a luncheon for residents and new physician. AOCR Board Members as well as AOA President-elect Norman Vinn, DO, attended the luncheon. The goal of the luncheon was to provide an opportunity for networking.

The AOCR Education Foundation sponsored an oral board preparation workshop which was presented by Thomas Gleason, DO, Rocky Saenz, DO, and Michelle Walters, DO, for residents attending the Annual Convention.

Faculty Reception held on Monday evening.

Michael Rosenthal with Orion HealthCorp, Inc.

Carestream Health, Inc., Representative Michael Hornback providing a demonstration to conference attendees

Lippincot Williams & Wilkins Representative Dale Shaughnessy
Joseph Alexander, DO, James Bova, DO, and Paul Garber, DO, received Life Membership in the AOCR as well as 16 other members who were unable to attend.

Michael Keleher, DO, received fellowship. He is shown with his sponsor, Thomas Anderson, DO.

Bruce Wolf, DO, received fellowship. He is shown with his sponsor, David Kellam, DO.

Paul Chase, DO, received the Distinguished Service Award for his many years of service to the AOCR, AOCR Education Foundation and the AOBRA. He is shown with his wife, Linda.

Les Folio, DO, received the program chair plaque for the 2013 Annual Convention “Radiology Essentials”.

President White introduced new Active Members. Left to Right: Rory Karibo, DO, Sandra Lee, DO, Matthew Hale, DO, Brandon Behjatnia, DO, James Legako, DO, Stephen Belcher, DO, and Timothy McKnight, DO.

Wade Wong, DO, received the Floyd J. Trenery Memorial Medal for his contributions to the AOCR CME program.
AOBR Annual Awards Banquet
Chicago, IL

Gregg Silberg, DO, received a retirement certificate and crystal for his service as an AOBR board member.

Paul Chase, DO, received a retirement certificate and crystal for his service as an AOBR board member.

Jeffrey Wilseck, DO, served as the 2012-2013 AOBR chairman and was presented with a retirement certificate and crystal for his service by Roy Teng, DO, who will be the 2013-2014 chairman.

Honoring Pam Smith’s Retirement

The AOCR honored Pam’s retirement during the Annual Award Ceremony by presenting her with a hot tub and monetary gift. These gifts were possible through the generous contributions of the membership. She also received a plaque and metalography print.

The AOCR Education Foundation established the Pamela A. Smith Scholarship in honor of her support and dedication. Over $30,000 has been pledged to the scholarship which will be used for the general purpose of the Foundation as well as advancing the education of AOCR staff.

The AOCR honored Pam during their Annual Awards Banquet. She was honored with a framed certificate, memory book with sentiments from past AOBR chairman and diamond earrings.

Dear Friends

Words cannot express the love and appreciation I have for the AOCR as I prepare for my retirement June 30. Working with the members, the leadership, the Board of Directors and each individual President has been such a joy. Serving as the Executive Director has been a very rewarding and fulfilling career. I want to thank you for your strong support of the college and of me during my 35 year tenure.

I want to personally thank Dr. Mike Willman who introduced me to the AOCR. I also want to thank Dr. Joe Andrews, my first President. Although I was familiar with the osteopathic profession, they both very patiently introduced me to radiology and the dynamics of the AOCR. And I want to especially thank our current President Dr. Fred White as well as all of my Past Presidents and all who have served on the Board of Directors. Each has brought new leadership and direction to the College. It has been very rewarding working with each and every one of you. The AOCR, AOBR and Education Foundation are blessed to have so many talented leaders that willingly give of their time and expertise to serve as committee and board members, CME program chairs, lecturers, residency trainers, and in so many other ways. Through the diligence of the membership and leadership, the AOCR has met many challenges over the years and is recognized as a leader in the profession. I congratulate each of you for your participation and commitment to the college and I take great pride in being a part of the AOCR.

And I cannot say enough about my wonderful staff – Carol, Rhonda, Erin, Jessica, Carly, and Mary. They are extraordinary employees as well as dear friends. Although I am sad to leave, I am confident that the AOCR is in good hands.

The Annual Convention in Ft. Lauderdale was very special to me as I saw so many members I have served with over the years. I was overwhelmed and completely surprised at the awards ceremony with the generosity of the members. I could not believe that the staff and members were able to plan such a huge surprise. Thank you for the beautiful plaque and the metalography print honoring my service to the AOCR. The AOCR Education Foundation Scholarship created in my name is such a special honor as I have worked with the Foundation since its creation in 1986. I am so proud of its accomplishments and am so pleased to continue to work with Foundation in an advisory capacity. I cannot tell you how thrilled I was with the wonderful gift of my hot tub thanks to the many generous contributions of the members. It is something I have wanted for several years and will certainly enjoy in my retirement.

I began as an employee of the AOCR in 1978 and have gained a wonderful family over the past 35 years. Your support throughout my career with the College, the AOBR and the AOCR Education Foundation has been unwavering. It is with such a sense of pride and accomplishment that I leave my position as the Executive Director but I will always be in touch through the staff to follow what’s happening. I may not be answering the phone when you call but you will all be in my thoughts every day.

With heartfelt appreciation

[Signature]

Involvement Opportunities

The AOB R would like to increase diplomat involvement. In order to ensure sufficient knowledge of the AOB R exam process, each diplomat must serve and fulfill each level of involvement prior to attaining Section Chair/Board Member status. If you are interested in becoming involved in the AOB R, please contact Erin Maulsby.

In order to enroll for the recertification/cognitive exam, diplomates must be enrolled in OCC.

*Exam Applications can be found at www.aocr.org under the AOB R section.
**Exam Fees can be paid by sending a check to the AOB R office or by phone at 660-265-4011 with a credit card.
Pamela A. Smith Scholarship Fund

The AOCR and the AOCR Education Foundation proudly announce the Pamela A. Smith Scholarship Fund to honor Pam for her 35 years of dedicated service and loyalty to the college.

The scholarship was announce at the Annual Convention in Fort Lauderdale, Fla., during an awards assembly celebrating her years of service, leadership, commitment, and support of the AOCR and its members.

The scholarship will be an everlasting tribute to Pam joining the general fund and COBE Project funds of the AOCR Education Foundation. Pam will serve as an advisor to the Education Board and aid in directing targeted use of the funds. In addition to the usual financial support of numerous education programs for physicians the scholarship will help our executive administrative staff at the AOCR in their education and professional development. This is a new addition to the support structure of the Education Foundation.

To date over $30,000.00 has been pledged in proud support and celebration of Pam’s 35 years of service.

Please show your thanks and best wishes for Pam’s retirement and legacy by contributing to her scholarship today!

AOCR Education Foundation Contributors

The AOCR is grateful to the following members who have contributed to the AOCR Education Foundation from March 13, 2013 through June 13, 2013. The listing reflects the donor’s lifetime contributions

**Trustee Level**

- Contributions of $5,000 and above
  - Thomas Gleason, DO
  - William E. Shiels II, DO
  - Kenneth P. Tarr, DO
  - Frederick E. White, DO

**Curator Level**

- Contributions of $3,000 and above
  - Paul J. Chase, DO
  - Lynnwood W. Hammers, DO

  - Ronald Alexander, DO
  - Kevin Baker, DO
  - John N. Bode, DO
  - Brent S. Deem, DO
  - John Gallagher, DO
  - William N. Hagen, DO

The Foundation supports the following activities thanks to your generous support.

- Grant to AOCR 2013 Annual Convention—Radiology Essentials
- Oral Board Preparation Workshop for residents at the 2013 Annual Convention
- March Resident Lecture—Christopher Cerniglia, DO Focused Specialty Review—MSK
- April Resident Lecture—William E. Shielis II, DO Focused Specialty Review—Pediatrics
- May Resident Lecture—Douglas Johnson, DO Focused Specialty Review—Chest and Cardiac
- June Resident Lecture—Brett Richardson, DO Focused Specialty Review—GI/GI

The AOCR Education Foundation takes pride in supporting the educational efforts of the AOCR. Your contributions enable us to continue to support our projects and begin new endeavors. Donation can be made online at www.aocr.org.

A full listing of all foundation contributors may be found on the AOCR website.

Dr. Broadman graduated from the University of Buffalo with a degree in pharmacy in 1962. He supported himself as a pharmacist and, in 1967, graduated from Kansas City College of Osteopathic Medicine in Kansas City, Mo. In 1968, he completed an internship at Botsford-Ziegler Hospital in Farmington Hill, Mich, and he began a radiology residency at Lancaster County Osteopathic Hospital in Lancaster County, Pa., that same year. He transferred to Martin Place Hospital in Madison Heights, Mich., and completed his residency in 1971. He practiced at Allegheny County Osteopathic Hospital in Pittsburgh, Pa., before moving to Jacksonville, Fla., in 1973. In Florida, he practiced at Jacksonville General Hospital, Shands Hospital, Lake City Hospital, and Green Cove Springs Hospital. He was also a civilian contractor at the hospitals of Mayport and Naval Air Station, the VA Hospital of Jacksonville, and the VA Hospital of Lake City.

He became a Resident Member of the AOCR in 1969, an Active Member in 1974 and a Life Member in 2005. Dr. Broadman was certified by the AOBR in radiology in 1974 and in nuclear medicine by the AOBNM in 1981.

He is survived by his wife, Rachel, and his daughters, Melissa Broadman, DO, Jennifer Kugler, DO, and husband Jay Kugler, DO, and Suzanne Bershad and husband Eric, and five grandchildren, Nathan, Max, Miriam, Georgette, and Joshua.

David B. Plone, DO, 70, of Scottsdale, Ariz., passed away on May 7, 2013.

Dr. Plone was a 1968 graduate of the Philadelphia College of Osteopathic Medicine in Philadelphia, Pa. He completed his internship at Doctors Hospital in Columbus, Ohio, in 1969, and his radiology residency at Cherry Hill Medical Center in Cherry Hill, N.J., in 1972. He served in the U.S. Army at Watson Army Hospital at Fort Dix, N.J., from 1972-1974 and then completed a nuclear medicine fellowship at Hahnemann Medical College and Hospital in Philadelphia, Pa., in 1975. He was certified in radiology by the AOBR in 1975. He was also certified in nuclear medicine by the ABNM in 1975 and the AOBNM in 1976.

He began his career as a radiologist at Community Hospital of the Palm Beaches in West Palm Beach, Fla. In 1980, he moved to Phoenix, Ariz., where he became a member of the Medical Diagnostic Imaging Group, Ltd., and remained until his retirement in 2012.

He is survived by his wife, Barbara, daughter Deborah and husband Daren, son Todd and wife Tara, and four grandchildren, Michael, Jaelyn, Emily, and Sara.

We would like to honor departed colleagues by including them in the Viewbox. If you know of any AOCR members who have passed away, please notify the AOCR.

**Outcomes Surveys** are available 60-90 days after a live activity. Participants will receive an email from the AOCR with the link to the online survey. Upon completion of the survey CME credit will be issued as listed above.

**Webinars** are a great opportunity to earn 1-A credit when you are unable to attend the Live Activities. Lectures will be broadcast via webinar from the Live Activity.

The AOCR is accredited by the Accreditation Council for Continuing Medical Education (ACCME) and the American Osteopathic Association (AOA) to provide continuing medical education for physicians.
The 2013-2014 Membership Renewals statements have been emailed. Please renew your membership to ensure uninterrupted member benefits.

Renewed Your Membership?

Four Easy Ways to Renew

1. Online at www.aocr.org
2. By phone at 800-258-2627
3. By mail to AOCR
   119 East Second Street
   Milan, MO 63556
4. By fax at 660-265-3494

The American Osteopathic College of Radiology presents

Bones & Brain Imaging

October 10-13, 2013         Gaylord Texan, Grapevine, TX

The 2013 Mid Year Conference, sponsored by the American Osteopathic College of Radiology, is intended for general radiologists and sub-specialty radiologists in musculoskeletal and neuroradiology. The topic areas will cover up-to-date information; however, will be broad enough that general radiologists will benefit and sub-specialty radiologists will be able to review important pathology, radiographic findings and differentials. Presenters will include audience response system (ARS) questions for a more interactive experience. This will also allow participants to test their knowledge and gauge their performance with peers and established benchmarks.

Topics will include MRI ankle, knee, shoulder, wrist, hip, and bone marrow. The neuroradiology topics will include brain trauma, temporal bone, spine imaging, sinus disease, and CNS infection. Our goal is to provide information that you can take back and immediately incorporate into your practices.

Course Objectives:

- Understand current indication and techniques of MRI arthrogram
- Review and understand the diagnosis and common musculoskeletal pathology of the shoulder, ankle, wrist, elbow, hip, knee, and digits with MRI
- Understand new imaging techniques including CTA, MRA and CT brain perfusion imaging
- Review and understand the diagnosis and pathology of the spine including infection, neoplasms and degenerative disease
- Review and understand the diagnosis and pathology of CNS trauma and intracranial infection
- Review and understand the differential diagnosis of head, neck and temporal bone pathology
- Review and understand the MRI appearance of normal and abnormal bone marrow
- MRI workshop will cover pulse sequence basics, anatomy, and a check-list approach to CNS and MSK MRI interpretation

Disclosure

It is the policy of the AOCR to comply with the Accreditation Council for Continuing Medical Education (ACCME) Standards for commercial support of CME Activities. All faculty participants in the AOCR programs are required to disclose to the program audience any real or apparent conflict(s) of interest related to this meeting or its content. Faculty disclosure information is included in the course syllabus and will be disclosed by faculty as they present.

Accreditation

The AOCR is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians. The AOCR designates this live activity for a maximum of 29 AMA PRA Category 1 credits™.

The AOCR is accredited by the American Osteopathic Association (AOA). The AOA has approved this CME Activity for 29 Category 1-A credits.

Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Course Schedule on page 16
Bones & Brain Imaging
October 10-13, 2013   Gaylord Texan, Grapevine, TX

Thursday, October 10
7:30 am  REGISTRATION & CONTINENTAL BREAKFAST
8:00 am  KNEE MENISCUS – Chung
9:00 am  HOW TO & WHY ARTHROGRAM: SHOULDER, HIP & WRIST – Saenz
* SAM CREDIT *
10:00 am SHOULDER INSTABILITY – Chung
11:00 am ROTATOR CUFF INJURIES – Malik
12:00 pm LUNCH
1:00 pm  ANKLE MRI – Chung
2:00 pm  SOFT TISSUE INJURY OF THE HIP – O’Mara
3:00 pm  HIP LABRUM AND FAI – Chung
4:00-6:00 pm MRI WORKSHOP – Saenz and Albers

Friday, October 11
7:30 am  REGISTRATION & CONTINENTAL BREAKFAST
8:00 am  WRIST MRI – Chung
9:00 am  MRI OF THE ELBOW – Malik
10:00 am MRI OF FINGERS – Chung
11:00 am UPDATE ON MRI OF NORMAL BONE MARROW – Albers
* SAM CREDIT *
12:00 pm LUNCH
1:00 pm  MSK AND NEURO INTERESTING CASE REVIEW – Saenz
2:00 pm  SINUS IMAGING – O’Brien
3:00 pm  WHITE MATTER DISEASE – Jewells
4:00-6:00 pm MRI WORKSHOP – Saenz and Albers

Saturday, October 12
7:30 am  REGISTRATION & CONTINENTAL BREAKFAST
8:00 am  BRAIN PERFUSION – Latchaw
9:00 am  HEAD TRAUMA – Jewells
10:00 am INTRACRANIAL INFECTIONS – Latchaw
11:00 am MRA BRAIN – Price
12:00 pm LUNCH
1:00 pm  DIFFERENTIALS IN TEMPORAL BONE IMAGING – O’Brien
2:00 pm  EXTRACRANIAL VASCULAR & BRACHIAL PLEXUS IMAGING – Jewells
3:00 pm  DIFFERENTIALS IN HEAD & NECK IMAGING – O’Brien

Sunday, October 13
7:30 am  CONTINENTAL BREAKFAST
8:00 am  INFECTION OF THE SPINE – Latchaw
9:00 am  MRI OF DEGENERATIVE SPINE DISEASES – Albers
10:00 am TUMORS OF THE SPINE AND SPINAL CORD – Latchaw
11:00 am UPDATE ON MRI OF BONE MARROW PATHOLOGY – Albers

Program Chair
Rocky Saenz, DO
Director of MRI, Botsford Hospital
Program Director of Radiology Residency
Clinical Faculty
Michigan State University
Farmington Hills, MI

Richard E. Latchaw, MD
Professor of Radiology
Neuroradiology Section
University of California at Davis
Sacramento, CA

Amaar M. Malik, DO
Section Chief of Musculoskeletal Imaging
Naperville Radiologists, SC
Naperville, IL

William T. O’Brien, Sr., DO
Chief, Department of Radiology
Wilford Hall Ambulatory Surgical Center
Lackland Air Force Base
San Antonio, TX

Kathleen O’Mara, DO
Staff Radiologist
Aurora Medical Group, Imaging Division
Milwaukee, WI

Gregory D. Price, DO
Neuroradiologist
Associated Radiologists Joliet
New Lenox, IL

FACULTY
Sheri L. Albers, DO, FAOCR
Radiology Research and Consultation
Sacramento, CA

Christine B. Chung, MD
Professor of Radiology in Residence
University of California San Diego Health System
San Diego, CA

Valerie L. Jewells, DO
Associate Professor of Radiology
University of North Carolina School of Medicine
Chapel Hill, NC

Offering 29 Category 1-A Credits
