

2015 ATMAE Corporate Prospectus

WHY BECOME A MEMBER?

While more than 50% of manufacturing companies report plans of increasing production through 2019, more than 75% of manufacturers report moderate to severe shortage of skilled resources. It is estimated that manufactures will experience up to 11% reduction in earnings given this shortage (Manufacturing Institute/Accenture, 2014)

ATMAE is a 501(c) 3 dedicated to the men and women who are working to change this trend. We represent over 500 community colleges, universities and their students. We want you to join ATMAE not just to help us with our mission but to also gain access to the trained workforce that will increase your profits!

ATMAE Mission

The Association of Technology, Management, and Applied Engineering is faculty, students, and industry professionals dedicated to solving complex technological problems and developing the competitive technologist and applied engineering workforce.

WHO ARE OUR MEMBERS?

- Over 50% of our members are students who are enrolled full time in a community college, technical institute or university. Many of them have certifications, through ATMAE, in addition to their course work demonstrating that they have met a professional standard as a Certified Technical Professional; Certified Technology Manager; Certified Manufacturing Specialist; or are certified in Engineering Graphics.
- Approximately 40% of our members are employed at 2-year or 4-year institutions which includes universities, community colleges, and technical institutions.
