October 2016

As we enter the final quarter of 2016, not much has changed since the year began. Market predictions have been, in a word, predictable. A relatively comfortable pace of activity has been maintained thanks to continuing low unemployment and mortgage rates. The one basic drag on market acceleration has been inventory decline. There is little to indicate that the low inventory situation will resolve anytime soon.

- Single Family Closed Sales increased 6.6 percent to 276.
- Townhouse-Condo Closed Sales decreased 24.5 percent to 148.
- There were no Adult Communities Closed Sales during the current period.
- Single Family Median Sales Price was down 3.0 percent to \$387,000.
- Townhouse-Condo Median Sales Price was up 3.4 percent to \$339,000.
- There was no Adult Communities Median Sales Price for the current period.

Builder confidence is as high as it has been in more than a decade, yet the pace of economic growth has been slow enough to cause pause. A low number of first-time buyer purchases and a looming demographic shift also seem to be curbing the desire to start new single-family construction projects. As older Americans retire and downsize, single-family listings are expected to rise. The waiting is the hardest part.
