Welcome from the ISNCC President

Dear Colleagues in Cancer Nursing,

On behalf of the Board of Directors of the International Society of Nurses in Cancer Care (ISNCC), I welcome you to the 17th International Conference on Cancer Nursing (ICCN), the premier international educational opportunity for cancer nurses.

The theme for the 17th ICCN is ‘Enhancing Patient Safety through Quality Cancer Nursing Practice.’ The ISNCC Scientific Planning Committee (SPC) and Conference Management Committee (CMC) have put together a wonderful opportunity to enhance our knowledge of professional education topics.

I am also delighted to welcome you to the historical city of Prague, Czech Republic. Prague is the political, cultural and economic centre of the Czech Republic and is home to about 1.3 million people. The extensive historic centre of Prague has been included in the UNESCO list of World Heritage Sites, making the city one of the most popular tourist destinations in Europe, receiving more than 4.1 million international visitors annually.

The ICCN is a wonderful opportunity to network with other cancer nurses from around the world by exchanging ideas and experiences, sharing new learnings, renewing old friendships and working in collaboration. I invite you to enjoy the unique opportunity to meet with international cancer nursing leaders from all over the world, in one place at one time.

Lastly, I also invite you to continue collaborating with your international colleagues by joining ISNCC as an individual member. Please visit the ISNCC registration desk during the conference and sign up for your membership.

Welcome to the 17th ICCN and the beautiful city of Prague!

Dr. Greta Cummings, RN, PhD, FCAHS

ISNCC President
Dear Colleagues,

On behalf of the European Oncology Nursing Society (EONS), an official partner of the 17th ICCN, I welcome all cancer nurses from around the world to meet in Europe, in the lovely city of Prague. It is so important that cancer nurses participate in these conferences to learn and share knowledge with each other, and discuss the best care for cancer patients.

Do take this great opportunity to talk to other nurses, don’t only talk with your own countrymen and women, do jump into it, and intervene and join the different discussions, sessions and workshops. And during the breaks, walk up to people and connect. Never forget that it is people who make the changes, and if there are two people talking, there is a chance for a change!

So why do we attend such conferences, and discuss our profession? It is the people affected by cancer that are the reason for attending, learning, and sharing new knowledge. We must never forget that.

As cancer nurses we shall lead and manage cancer care and be a strong voice in the multi–professional teamwork and at the political arena. We must work together in partnership to develop, deliver and empower cancer nursing excellence through education, research, leadership and support.

As EONS President I do welcome the world’s cancer nurses to Europe, and hope you will enjoy your stay!

Birgitte Grube, RN, MEd
EONS President

Dear Colleagues,

As president of the Czech Nurses Association, I would like to warmly welcome you to Prague for the 17th International Conference on Cancer Nursing. The Czech Nurses Association is very happy to be an official partner of the 17th ICCN – such an important event for the nursing community worldwide.

Oncology diseases have an immense impact on people’s lives, and only nurses who understand these issues well can effectively guide their patients and their families through the uneasy process of diagnosing and treating these diseases. Further, nurses play a crucial role in patient safety – the theme of the 17th ICCN.

We would like to wish you fruitful discussions in the conference sessions, and also a nice time while you discover the beauty of our capital.

Dana Juraskova, MA, MBA, PhD
Czech Nurses Association President
Dear Colleagues, Ladies and Gentlemen,

Let me welcome you on behalf of the Czech Oncology Nursing Society to the 17th International Conference on Cancer Nursing (ICCN) in Prague. Our society is an official partner of ICCN and it is a great honour to us that we can organise the conference here in the Czech Republic. Czech oncology is at a very high professional and organisational level and our results are comparable with the developed countries of the European Union. We have the National Cancer Control Program which is guaranteed by the president of our Republic and the National Cancer Registry providing anonymized epidemiological data, has been functioning well for more than 20 years. The most complex and expansive care is concentrated in 13 comprehensive cancer centres which are very well equipped in all respects. Lectures on oncology are part of both pre–graduate and post–graduate education of doctors and nurses.

Unfortunately, regarding the incidence of cancer, the Czech Republic has been occupying leading positions in Europe, for instance colorectal cancer represents a big problem.

The awareness of the Czech population concerning prevention, early diagnosis and treatment of cancer is improving. We have three screening programs for early detection of breast cancer, colorectal cancer and cervical cancer. People can get all necessary information about cancer for instance on the internet pages or through a free telephone line.

The Czech Oncology Nursing Society takes an active part in all above mentioned activities.

Recently, the nursing care of cancer patients has improved significantly as well as the position of patients and their families. An indispensable part of nursing care is formed by quality management and patient safety which is aimed at introduction of procedures reducing the risks arising during cancer care provision.

In the future, we want to improve especially prevention and early diagnosis of cancer and to expand and intensify international collaboration. This is also the target of this conference to which I cordially welcome you once more.

I wish you a lot of new professional information, many new friends and also a pleasant stay in Prague.

Hilda Vorlíčková, RN
Czech Oncology Nursing Society President

Awards

**DISTINGUISHED MERIT AWARD**

The ISNCC Distinguished Merit Award is given in recognition of an outstanding member who has contributed to the international advancement of the science and art of cancer nursing. The awardee will be a registered nurse who has made a significant and innovative contribution to cancer practice, education, research, or management at an international level. This contribution should go beyond that which would be normally expected of a registered nurse in his/her particular sphere of professional endeavour. The successful nominee is chosen by the ISNCC Awards Committee via competition.

**Stella Bialous**  
Tobacco Policy International  
San Francisco, USA

**Virginia Gumley**  
Shaukat Khanum Memorial Cancer Hospital and Research Centre  
Lahore, PAKISTAN

**PAST PRESIDENTS’ AWARD**

The ISNCC Past Presidents’ Award is given in recognition of a cancer nurse from a low resource country who has initiated and sustained a program of cancer care in her/his country which has been in place for three or more years and has the potential for replication or adaptation beyond the country’s borders. The successful nominee is chosen by the ISNCC Awards Committee via competition.

**David Makumi and Breast Health Nurses**  
Aga Khai University Hospital  
Nairobi, KENYA

**ROBERT TIFFANY LECTURESHIP**

The ISNCC Robert Tiffany Lectureship was created to keep alive and honour the memory of Robert Tiffany, founding member and founding President of the International Society of Nurses in Cancer Care. Robert Tiffany was the initiator of the biennial International Conference on Cancer Nursing and an inspiration to many nurses around the world. The intention of the named lecture is to honour those who have a similar capacity to inspire cancer nurses of today and of the future. The successful nominee will be a registered nurse who has the capacity to inspire others towards excellence in cancer care. They will be recognized as a leader in cancer nursing in their own country and preferably also at a regional or international level. Importantly they will be acknowledged as a person capable of delivering an inspirational lecture on a topic relevant to cancer nursing. The successful nominee is chosen by the ISNCC Awards Committee via competition.

**Meinir Krishnasamy**  
Peter MacCallum Cancer Centre  
Victoria, AUSTRALIA
TRAVEL SCHOLARSHIPS

The ISNCC Travel Scholarships are awarded to nurses from low resource countries to offset the costs associated with traveling to the International Conference on Cancer Nursing. These scholarships are chosen by the ISNCC Awards Committee via competition.

Charlotte Lamptey
National Centre for Radiotherapy and Nuclear Medicine, GHANA

Exclusive scholarship support provided by Peter MacCallum Cancer Center

Peter MacCallum Cancer Centre is a world leader in cancer treatment, research and education. At Peter Mac we treat more cancer patients each year than any other hospital and our highly skilled medical, nursing and allied health team is backed by the largest cancer research group in Australia. Peter Mac is a totally smoke-free environment.

Retno Purwanti
Dharmais National Cancer Centre (DNCC), INDONESIA

Exclusive scholarship support provided by Princess Margaret Hospital

Princess Margaret Hospital (PMH) is home to the Princess Margaret Cancer Program, which has 12 site groups and 26 specialty clinics, and almost 3,000 staff who see over 400,000 patient visits every year. Its 800,000 square feet house 130 inpatient beds, 373,000 square feet of research space and 17 radiation treatment machines, making it one of the largest comprehensive cancer treatment facilities in the world and the largest radiation treatment centre in Canada.

Mesfin Anley
TikurAnbessa Specialized Hospital, ETHIOPIA

Exclusive scholarship support provided by Sunnybrook Health Sciences Centre

Sunnybrook Health Sciences Centre in partnership with the University of Toronto, leads by discovery, innovation, teaching, & learning and is home to several programs including Brain Sciences, Musculoskeletal, Schulich Heart Centre, Trauma, Emergency and Critical Care, Veterans and Community, Women & Babies, and the Odette Cancer Centre. The Odette Cancer Centre Program is highly specialized and comprehensive, and ranks sixth in North America among a select group of world-class institutions who are research intensive, provide the full spectrum of patient care and who engage in education and community outreach.

Job Wekesa Wamukaya
Ampath Oncology, KENYA

Exclusive scholarship support provided by MacMillan Cancer Support

Macmillan Cancer Support is a charity in the United Kingdom that has been supporting people affected by cancer for more than 100 years. We provide cancer services & campaign for improvement to cancer care and patient experience. We fund health & social care professionals including nurses, doctors, therapists and information & financial advice specialists. We build information and support centres, fund self help and support groups & create volunteer run community services. We develop cancer information resources and provide support through our website and telephone support line. We collaborate with partners like the National Health Service, other charities, businesses and local government. We rely almost entirely on voluntary donations.
TRAVEL SCHOLARSHIPS

Peter Kamau
Kenya Methodist University, KENYA

Non–exclusive scholarship support provided by Cancer Nurses Society of Australia, Hunter Regional of Cancer Nurses Society of Australia, Japanese Society of Cancer Nursing, Oncology Nursing Society, and Sidney Kimmel Comprehensive

The Cancer Nurses Society of Australia (CNSA) was founded in 1998 as a nursing specialist interest group as part of the Clinical Oncological Society of Australia (COSA). In 2013, CNSA will become an independent organisation for Cancer Nurses across Australia, reinforcing its position as the peak professional body for Nurses working with people affected by cancer. CNSA is committed to achieving and promoting excellence in cancer care through the professional contributions of nurses. As a membership based organisation CNSA has developed to support and serve Cancer Nurses in Australia. A National Executive Committee which comprises elected representatives from all States and Territories and a nationally elected President govern CNSA. Today there are 800 members throughout Australia.

Cancer nurses provide services which are an integral part of an interdisciplinary approach to cancer care. The Cancer Nurses Society of Australia (CNSA) is committed to achieving and promoting excellence in cancer care through the professional contribution of nurses. The Society is dedicated to excellence in patient care, research, and education in cancer nursing. The Hunter Regional group is one of 2 groups that service the needs of Cancer Nurses in NSW.

The Japanese Society of Cancer Nursing (JSCN), founded in 1987, became an organizational member of the Science Council of Japan in 1996. The JSCN aims to develop research and education, and promote the implementation of cancer nursing. As of June 2012, over 4,700 registered nurses were members of the JSCN. The board of elected directors organizes eight committees focused on publication, education/research activities, and international activities. Over 3,000 nursing professionals from diverse specialties gather at the annual conference of the JSCN. The JSCN strives to expand its international activities across Asia and around the world through collaboration with the ISNCC.

The Oncology Nursing Society (ONS) is a professional association of more than 35,000 members committed to promoting excellence in oncology nursing and the transformation of cancer care. Since 1975, ONS has provided a professional community for oncology nurses, developed evidence-based education programs and treatment information, and advocated for patient care, all in an effort to improve quality of life and outcomes for patients with cancer and their families. Learn more at www.ons.org.

The Sidney Kimmel Comprehensive Cancer Center at Johns Hopkins in Baltimore, Maryland is a National Cancer Institute designated comprehensive center, providing excellence in clinical care, research and education. A multidisciplinary approach assures that patients receive the highest quality of care based on the very latest scientific evidence. Laboratory research discoveries, new drug development and individualized treatments are translated into clinical care at the patients’ bedside. Patients and their families receive care in our medical and radiation oncology outpatient departments, our nurse-managed InPatient/OutPatient clinics, and our specialty inpatient units for solid tumors, blood and marrow transplants, leukemia, and other hematologic malignancies.

ISNCC would also like to thank its individual donors for support of the travel scholarships:

- Sanchia Aranda
- Yoko Gokan
- Tish Lancaster
- Maureen McQuestion
- Brenda Nevidjon
- Esther ruth Schmidlin
- Winnie So
- Hiroko Tadaura
- Sally Whiting
General Information

VENUE

The 17th ICCN will be held at the Hilton Prague Hotel, from September 9 – 13th, 2012, in the historical city of Prague, Czech Republic. ISNCC is looking forward to its 17th highly successful nursing conference – the longest running international conference for our profession.

HILTON PRAGUE HOTEL
Pobrezni 1
Prague, Czech Republic 186 00
Tel: 420–2–2484–1111 Fax: 420–2–2484–2378

REGISTRATION AND SPEAKER SERVICES

Full-conference registered attendees receive the following included in registration fees:

- Access to the welcome reception
- Access to all plenary and abstract sessions
- Access to posters and exhibits
- Access to conference lunch sessions, including meals
- Program
- Delegate bag
- Online access to the Abstract Program

Registration is located in the Congress Hall Foyer. The Speaker Services Centre is located in room Budapest.

LANGUAGE
The official language of the Conference is English.

MENTOR PROGRAM
The ‘Mentor Program’ provides a quality orientation for first time delegates attending the 17th ICCN. Your mentor will describe the meeting in general, how to interpret the conference program, how best to work out which sessions you would like to attend, how to benefit from the poster sessions, as well as assisting you with practical matters such as meal breaks and what to expect from social functions. More specifically, as a mentee you may be introduced to colleagues who work in similar areas of specialty. As a mentee you will be shown ways to network so that you meet new cancer nursing colleagues and contacts from around the globe. This program is designed to ensure that you have a great conference. A “Meet Your Mentor’ session has been arranged from 5.30pm to 6.00pm on Sunday 9th September in room Paris for mentors to connect with first time attendees prior to the welcome reception. This will be hosted by members of the Member Development and Communications Committee.

ABSTRACT PROGRAM
Oral and poster abstracts are available online only in the 17th ICCN Abstract Program. Please visit www.isncc.org to print the 17th ICCN Abstract Program. The abstracts included in the Abstract Program have been presented as submitted by the authors. The 17th ICCN Scientific Planning Committee has not altered the submissions for inclusion. Author's credentials have been included where submitted.

EXHIBITS AND POSTERS
The Exhibit Hall and Posters are located in the Congress Hall Foyer. Full details of all exhibitors along with a floorplan of the exhibitors can be found in this program.

Posters are a wonderful educational opportunity at this conference. The Scientific Planning Committee received a wealth of abstracts on research, education, management and clinical practice, and for your convenience the posters will be profiled each day, where delegates can “Meet the Authors”. During these sessions, authors will be present to discuss their work with you. Posters will be individually numbered and grouped by themes within the poster hall and also within the Abstract Program (which is available to download from the ISNCC website at www.isncc.org).

POSTER TOPICS

**Poster Session 1**
- Cancer Across Life Span
- Cultural and Spiritual Care
- Education: Nurse and Patient
- Ethics, Informed Consent and Clinical Trials
- Innovation in Practice and Roles
- Models of Care Delivery
- Politics, Policy Makers and Economics
- Prevention, Genetics, and Screening
- Quality and Patient Safety
- Supportive and Palliative Care
- Survivorship

**Poster Session 2**
- Cancer Across Life Span
- Cultural and Spiritual Care
- Education: Nurse and Patient
- Innovation in Practice and Roles
- Ethics, Informed Consent and Clinical Trials
- Models of Care Delivery
- Politics, Policy Makers and Economics
- Prevention, Genetics, and Screening
- Quality and Patient Safety
- Supportive and Palliative Care
- Survivorship
- Treatment Development
- Workforce and Healthy Workplace Issues

**Poster Session 3**
- Cultural and Spiritual Care
- Education: Nurse and Patient
- Innovation in Practice and Roles
- Models of Care Delivery
- Politics, Policy Makers and Economics
- Quality and Patient Safety
- Supportive and Palliative Care
- Survivorship
- Treatment Development
- Workforce and Healthy Workplace Issues

Each day, awards will be given for the best poster, one for the category of Research and the other for the combined categories of Clinical Practice, Education and Leadership. A team of 2-3 judges and a coordinator will evaluate the top 10 ranked posters for each grouping based on scores given during the abstract review process. The award-winning poster will be identified with a rosette and winners will be announced at the Closing Session.

The People’s Choice Award is your chance to select the poster you feel is the best during each poster session. Each ICCN participant has the opportunity to take part in the selection of the daily People’s Choice Award. This award can be given to any poster presented in that day’s Poster Session regardless of category or topic. You will receive specially marked cards in your delegate badge that allow you to vote once each day. Votes will be tallied at the end of each day and the People’s Choice Award winner’s name will be announced and will receive a certificate of award at the beginning of the Plenary Session the following day.

CERTIFICATES OF ATTENDANCE
A certificate of attendance is available in your delegate bag.

SMOKING
Please note that although ISNCC activities will be smoke–free, the Hilton Prague Hotel does offer smoking options. ISNCC believes that prevention of tobacco use, prevention of exposure to second hand smoke, assessment of nicotine dependency and support for smoking cessation are valuable approaches for nurses in order to decrease tobacco–related health problems.

## Conference Day 3: Wednesday 12 September 2012

### Concurrent Sessions

**10.50am – 12.10pm**
- Concurrent Session F1: *Education: Nurse and Patient & Survivorship*
- Concurrent Session F2: *Models of Care Delivery & Supportive and Palliative Care*
- Concurrent Session F3: *Education: Nurse and Patient, Prevention, Genetics and Screening & Quality and Patient Safety*
- Concurrent Session F4: *Quality and Patient Safety*
- Concurrent Session F5: *Survivorship*

**12.20pm – 1.20pm**
- LiveStrong Lunch Tutorial Session
- ICU Medical Lunch Tutorial Session

**1.20pm – 1.50pm**
- Coffee/Tea Break with Exhibits and Poster Session 3

**1.50pm – 2.40pm**
- General Business Meeting

**2.40pm – 3.30pm**
- Plenary VI – Workforce and Healthy Workplace Issues

**3.30pm – 4.00pm**
- Coffee/Tea Break with Exhibits and Poster Session 3

**4.00pm – 5.20pm**
- Concurrent Session G1: *Education: Nurse and Patient, Quality and Patient Safety, Supportive and Palliative Care & Treatment Development*
- Concurrent Session G2: *Prevention, Genetics and Screening & Supportive and Palliative Care*
- Concurrent Session G3: *Education: Nurse and Patient, Prevention, Genetics and Screening & Supportive and Palliative Care*
- Concurrent Session G4: *Innovations in Practice and Roles & Models of Care Delivery*
- Concurrent Session G5: *Innovation in Practice and Roles*

**4.15pm – 8.30pm**
- Exhibit Hall Tear-Down

**4.30pm – 5.30pm**
- Poster Session 3 Move-Out

**5.30pm – 7.30pm**
- Adherence Focus Group*

**8.00pm – 10.00pm**
- ISNCC Board of Directors, CMC and SPC Post-Conference Dinner*

## Conference Day 4: Thursday 13 September 2012

**6.00am – 8.00am**
- Continental Breakfast (Provided by hotel for all Hilton Prague guests)

**7.00am – 12.30pm**
- Conference Secretariat Office Open
- Conference Registration and Speaker Services Open

**7.00am – 8.00am**
- ISNCC Finance and Audit Committee Meeting
- Tobacco Control Special Interest Group Meeting

**8.00am – 8.50am**
- Plenary VII – Politics, Policy Makers and Economics

**9.00am – 10.20am**
- Concurrent Session H1: *Cultural and Spiritual Care & Prevention, Genetics and Screening*
- Concurrent Session H2: *Education: Nurse and Patient & Models of Care Delivery*
- Concurrent Session H3: *Cancer Across Life-Span, Prevention, Genetics and Screening & Supportive and Palliative Care*
- Concurrent Session H4: *Innovation in Practice and Roles, Models of Care Delivery & Quality and Patient Safety*

**10.20am – 10.50am**
- Coffee/Tea Break

**10.50am – 12.15pm**
- Closing Ceremony

**1.00pm – 3.00pm**
- ISNCC Post-Conference Board of Directors Lunch and Debrief*
17th International Conference on Cancer Nursing (ICCN) Program

Addressing Cancer Disparities in Central and Eastern Europe
The aim of the Bristol Myers Squibb Foundation Grantee Summit is to provide a platform to support an audience of experienced leaders of cancer organizations from across Europe to learn from and collaborate with other leaders in addressing cancer disparities and building capacity. The conference will allow for the sharing of experiences and learnings on addressing cancer disparities via keynote presentations, educational workshops and networking activities.

Faculty:
- Casimiro Dias, MPH, RN, Technical Officer, Human Resources for Health, WHO Regional Office for Europe, DENMARK
- Patsy Yates, PhD, Professor, School of Nursing and Midwifery at Queensland University of Technology, AUSTRALIA

</tr>
</tbody>
</table>

ONS and ISNCC seek to educate nurses through a collaborative Clinical Trials Awareness on a Global Level Preconference Workshop at ICCN.

The Clinical Trials Awareness on a Global Level Preconference Workshop is a one-day train-the-trainer program, including a workshop kit that can be used to educate nurses in delegates’ home communities. By the end of the Clinical Trials Awareness on a Global Level Preconference Workshop, delegates will be able to:

1. Discuss how clinical trials have contributed to major improvements in cancer treatment.
2. Describe the process of new treatment development, focusing on the components of clinical trials.
3. Describe the role and responsibilities of the direct care nurse in the care of people eligible for or enrolled in clinical trials.
4. Outline the essential content to include in patient and family education related to clinical trials.
5. Provide leadership and education about clinical trials to nurses and other healthcare professionals in their communities.

Delegates who attend this preconference workshop will be expected to share the information learned with nurses in their community by providing at least one training program using the materials provided in the workshop. In addition, delegates will be asked to act as a role model in their institution and make one change in their practice.

Faculty: Barbara Lubejko, RN, MS, Project Manager/Education Team, Oncology Nursing Society, USA; Annie Young, Professor of Nursing, Warwick Medical School, UNITED KINGDOM; Elizabeth Ness, RN, MS, Nurse Consultant (Education), Center for Cancer Research, National Cancer Institute, USA

Background: To date, there are more than 50 oral agents approved to fight cancer and 35% of drugs in the oncology pipeline are oral. Of these, 85% are targeted therapies. The evolution of oral targeted therapies has significantly changed the delivery and impact of cancer care. One of the challenges with oral therapies is, “How do we ensure that patients receive safe and quality care that is equivalent to the care patients receive when they are treated with intravenous therapies in a controlled environment?” The ISNCC Cancer Patient Safety Framework Workshop was developed to address the growing challenge of adherence to oral therapies.

ICCN Preconference Workshop – Objectives for Participants:

• To gain an understanding of the impact of oral therapies in oncology care;
• To discuss the risk factors associated with over and under adherence to therapy; and
• To implement tools within their practice to promote adherence.

Prior to the workshop, delegates will complete online learning modules, including assessments and computer-based activities related to selected reading materials. During the workshop Nurse Champions from Czech Republic, Hungary, and Poland will present the latest research on adherence to oral therapies. (The workshop will be conducted in English with simultaneous translation to Czech, Hungarian and Polish.) Following the workshop, delegates will evaluate the potential for international synthesis and launch of an online version of the Cancer Patient Safety Framework Program for broader distribution and use by cancer nurses all over the world.

By attending this workshop, oncology nurses will be equipped with the knowledge and tools to promote adherence to oral therapies, therefore improving quality of life and providing cost effective, safe, and quality care to promote positive patient outcomes.

This workshop is supported by an unrestricted educational grant from Novartis.

Presenters: Andrea Nečasová, Charles University Teaching Hospital, CZECH REPUBLIC; Darja Hrabánková – Navrátilová, General University Hospital, CZECH REPUBLIC; Ilona Bences, Semmelweis University, HUNGARY; Talmaci Miklósné Müller Eleonóra, Semmelweis University, HUNGARY; TBD

AVA and Bard Pre–Conference Workshop***

Enhancing Patient and Nurse Safety Through Vascular Access Best Practices

This full day workshop offers participants an in-depth review of best practices for insertion, care and maintenance of peripheral, peripherally-inserted central catheters, implanted ports, and other forms of central vascular access. Planned teaching methods include didactic and practical instruction and preceptor-guided clinical simulation. Faculty are recognized leaders in vascular access, clinical experts, instructors, and mentors from a variety of U.S. practice settings. The program is planned and coordinated by the multidisciplinary Association for Vascular Access, with the support of an unrestricted educational grant from Bard Access Systems.

Faculty: Pamela J. Haylock, PhD, RN, FAAN, Session Coordinator, Chief Executive Officer, Association for Vascular Access, USA; Paul L. Blackburn, RN, BSN, MNA, VA-BC, President-Elect, Association for Vascular Access; Senior Marketing Director, Clinical Education, RyMed Technologies, Inc., USA; Lois Davis, RN, MSN, VA-BC, Director of Professional Development, Association for Vascular Access, Managing Editor, Journal of the Association for Vascular Access, USA; Lorelei Papke, RN, MSN, CRNI, CEd, VA-BC, Director-at-Large, Vascular Access Certification Corporation; Clinical Nurse Manager for the Vascular Access Service Team, University of Michigan Health System, USA; Mark Rowe, RNP, MNSc, VA-BC, Director-at-Large, Association for Vascular Access, Vascular Access Specialist in the Department of Surgery, University of Arkansas for Medical Sciences (UAMS), Winthrop P. Rockefeller Cancer Institute USA,
Welcome Reception: Sunday 9 September 2012

De Souza Institute Pre-Conference Workshop***

Bringing Evidence Based Care into Oncology Nursing Practice Across Regional, National and International Boundaries – the de Souza Experience Hosted by de Souza Institute

Oncology nurses are a critical resource for all cancer patients and their families. However, nursing curricula do not prepare nurses to become cancer nurses with knowledge, skills and clinical judgement to meet the complex needs of the patient population. Nurses currently in the field also require evidence based knowledge and standardized approaches to support their specialized practice, and for successful management of the unique complexities in cancer care. In 2008 the Ontario Ministry of Health and Long Term Care provided funding to establish the “de Souza Institute” (www.desouzanurse.ca). The key deliverable was a state of the art Institute for knowledge translation and building capacity across all domains of oncology nursing practice (generalist, specialist, advanced practice roles) with the vision “to provide Ontarians with the best cancer care in the world”. The de Souza Institute is leading the way in providing timely, accessible, evidence-based continuing and graduate education through innovative teaching models that incorporate online learning and telemedicine. To date, more than 3,500 nurses working along the continuum of cancer care from prevention, screening, treatment, palliation to survivorship care have participated in de Souza educational offerings and curriculum has already been sought out and delivered in other provinces, such as Alberta and in such countries as Brazil and Kuwait. The de Souza Designation- a comprehensive educational program supporting specialization of knowledge and practice of oncology nursing and directed at different levels along the trajectory of care has been launched with the goal to inspire nurses to meet the highest standard of care.

This workshop is open to leaders and will provide an overview of the de Souza programs, its structure and on the new “de Souza Designation”. The workshop leaders will facilitate dialogue on potential partnerships with other international groups to explore opportunities for enhancing the expertise of cancer nurses, collaborating on initiatives and supporting nurses in advanced knowledge and clinical practice wherever they work.

Presenters: Mary Jane Esplen, PhD, RN; Esther Green, RN, BScN, MSc (T); Sandra Li-James, BScN, MED., CCN(C); Laura Rashleigh, RN, BScN, MScN, CON(C); Jaihui Wong, PhD; Fatima Batalha, PhD

Conference Day 1: Monday 10 September 2012

6.00am – 8.00am Continental Breakfast (Provided by hotel for all Hilton Prague guests) Atrium Restaurant

7.00am – 6.00pm Conference Secretariat Office Open Budapest

7.00am – 6.00pm Conference Registration Open Congress Hall Foyer

7.00am – 8.00am ISNCC Member Development and Communications Committee Meeting Amsterdam
CONFERENCE DAY 1: MONDAY 10 SEPTEMBER 2012

Official Opening Ceremony and Welcome

**Chairs: Georgie Cusack, USA and Iveta Nohavová, CZECH REPUBLIC**

- **8.00am – 8.15am** Welcome and Greetings by Scientific Planning Committee (SPC) Co-Chairs
  - Georgie Cusack, USA, Iveta Nohavová, CZECH REPUBLIC
  - Congress Hall 2

- **8.15am – 8.20am** Greetings and Welcome Remarks from the Czech Oncology Nursing Society
  - Hilda Vorlíčková, CZECH REPUBLIC

- **8.20am – 8.30am** Greetings and Welcome Remarks Video from International Council of Nurses (ICN)
  - Greta Cummings, CANADA

- **8.30am – 8.45am** Welcome and Presidential Address
  - Greta Cummings, CANADA

- **8.45am – 9.00am** Opening Celebration, Music by Plzeňský MLS

Keynote Address

**Chairs: Georgie Cusack, USA and Iveta Nohavová, CZECH REPUBLIC**

- **9.00am – 10.00am** Global Issues on Quality Cancer Nursing Practice to Ensure Patient Safety
  - Sultan Kav, RN, PhD, Associate Professor at Baskent University and Past President of European Oncology Nursing Society (EONS), TURKEY

- **9.45am – 4.30pm** Exhibits Open

Coffee/Tea Break with Exhibits and Poster Session 1

**Chair: Greta Cummings, CANADA**

- **10.00am – 10.30am** Tobacco Control as a Cancer Nursing Path
  - Stella Aguinaga Bialous, President, Tobacco Policy International, USA

- **10.45am – 11.00am** In Ever Increasing Circles: A Cancer Nursing Journey
  - Virginia Ann Gumley, Professor, Shaukat Khanum Memorial Cancer Hospital & Research Centre, PAKISTAN

Plenary I – Education

**Chair: Cathy Glennon, USA**

- **11.00am – 11.50am** Education of Oncology Patients in the Czech Republic and Slovakia
  - Hana Svobodová, MS and Marie Zvoníčková, PhD, Professor, Charles University, CZECH REPUBLIC

- **11.25am – 11.50am** Oncology Nursing Education in Brazil
  - Dailete Delalibera Correia de Faria Mota, Professor, Brazilian Society of Oncology Nursing (SBEO) and Federal University of Goiás (UFG), BRAZIL
CONFERENCE DAY 1: MONDAY 10 SEPTEMBER 2012

Bristol Myers Squibb Foundation
Lunch Tutorial Session

New Models for Elevating the Practice and Status of Community-Based Nursing Across the Spectrum of Cancer Care in Central and Eastern Europe

Learning Objectives:
• Increase awareness of new models elevating the role of community-based nurses in providing care to cancer patients in central and eastern Europe
• Develop strategies for engaging nurses to help improve cancer outcomes through community-based interventions

Moderators: Catharine Grimes, Director, Bristol-Myers Squibb Foundation, Birgitte Grube, President, European Oncology Nursing Society

Panel:
Engaging Oncology Nurses in Community-Based Prevention Strategies for Tobacco Cessation
Linda Sarna, DNSc, RN, AOCN, FAAN, Professor and Lulu Wolf Hassenplug Endowed Chair, UCLA School of Nursing
Utilizing General Practice Nurses to Help Improve Early Detection Rates for Pediatric Cancer
Dorota Kuchna, Executive Director, Project HOPE Poland
Evolving and Increasing the Role of Nurses Caring for Cancer Patients in their Communities
Sarah Archer, BSN, MSN, Interim Administrative Director, Gundersen Lutheran Center for Cancer and Blood Disorders, Gundersen Lutheran Health System, La Crosse, USA
Educating and Developing Oncology Nursing Leaders in Palliative Care
Pam Malloy, RN, MN, FPCN, ELNEC Project Director, American Association of Colleges of Nursing

12:00pm – 1.00pm – concurrent session

Skeletal Care Academy
Lunch Tutorial Session

Managing Skeletal Complications: The Role of the Oncology Nurse
During this tutorial, you will learn how to optimise the care of patients with cancer therapy-induced bone loss (CTIBL) and cancer-induced bone loss (CIBL). Key concepts will be explored in depth, and patient case studies will illustrate management strategies for the assessment and treatment of bone loss and skeletal complications.

Learning objectives:
• Raise awareness of CTIBL and CIBL, and their impact on patient lives
• Describe the key principles and practices involved in the assessment of patients with bone loss
• Highlight nursing strategies for maintaining bone health and improving patient outcomes in cancer care

12:00pm – 12:05pm Welcome and Introductions
Lawrence Drudge–Coates
12:05pm – 12:25pm Key Concepts in the Management of Cancer Therapy–Induced Bone Loss
Lawrence Drudge–Coates
12:25pm – 12:45pm Key Concepts in the Management of Cancer–Induced Bone Loss
Kay Leonard
12:45pm – 12:55pm Q&A Session

### Conference Day 1: Monday 10 September 2012

#### Concurrent Session A4 – Prevention, Genetics, and Screening & Survivorship

**Chair:** Winnie So, CHINA

- **2.30pm – 2.50pm**
  - A Genetic Family History: The Cancer Nurses’ Role
    - Candy Cooley, UK
  - Athens & Barcelona

- **2.50pm – 3.10pm**
  - Health Related Quality of Life in Head and Neck Cancer (HNC) Patients: A Longitudinal Study
    - Kate White, AUSTRALIA

- **3.10pm – 3.30pm**
  - Development of a Nurse–Led Survivorship Intervention for Long Term Survivors of Hodgkin Lymphoma
    - Priscilla Gates, AUSTRALIA

- **3.30pm – 3.50pm**
  - What Should I Eat? Evidence-Based Guidelines on Nutrition and Physical Activity For Cancer Survivors
    - Terri Ates, USA

#### Concurrent Session A5 – Education: Nurse and Patient & Supportive and Palliative Care

**Chair:** Myrna Doumit, LEBANON

- **2.30pm – 2.50pm**
  - The Experience of Oncology Nurses in Lebanon
    - Myrna Doumit, LEBANON
  - Berlin & Brussels

- **2.50pm – 3.10pm**
  - Demonstration Project: Oncology Nurse Training
    - Mariano Torres, PHILIPPINES

- **3.10pm – 3.30pm**
  - Innovative Learning Strategy to Enhance Radiation Oncology Nursing Practice
    - Jiahui Wong, CANADA

- **3.30pm – 3.50pm**
  - The Taboo Topic – Nurse Practitioners in Regional Victoria, Australia
    - Regina Kendall, AUSTRALIA

#### Coffee/Tea Break with Exhibits and Poster Session 1

**Congress Hall Foyer**

#### Concurrent Session B1 – Innovation in Practice and Roles & Models of Care Delivery

**Chair:** David Larkin, AUSTRALIA

- **4.20pm – 4.40pm**
  - Illness Suffering in Childhood Cancer: A Qualitative Interpretation of Therapeutic Conversations Shared By Nurses and Family Members
    - Christina West, CANADA

- **4.40pm – 5.00pm**
  - Seeing Eye to Eye: Understanding Patient’s Expectation and Experiences of Follow Up in the Melanoma Clinic
    - Jacqueline Mathison, AUSTRALIA

- **5.00pm – 5.20pm**
  - Ten Years and Still Going Strong
    - Jo-Ann Cryer, AUSTRALIA

- **5.20pm – 5.40pm**
  - An Ethiopian Model of Cancer Nursing Care Delivery
    - Mesfin Anley, ETHIOPIA

#### Concurrent Session B2 – Innovation in Practice and Roles & Models of Care Delivery

**Chair:** Pamela Malloy, USA

- **4.20pm – 4.40pm**
  - Nurse Navigator Practice: A Time and Motion Study
    - Andréanne Sauzier and Alain Biron, CANADA

- **4.40pm – 5.00pm**
  - Patient Navigation: How to Develop and Be a GPS (Great Patient Support System)
    - Cynthia Cantril, USA

- **5.00pm – 5.20pm**
  - Evaluation of Nurse Led Telephone Follow Up in Low/Intermediate Risk Prostate Cancer Patients
    - Mary Leahy, AUSTRALIA

- **5.20pm – 5.40pm**
  - Evaluation of the Western Australian Cancer Nurse Coordinator Role
    - Leanne Monterosso, AUSTRALIA

**Conference Day 1: Monday 10 September 2012 continued**

### Concurrent Session B3 – Prevention, Genetics and Screening
- **Chair:** Hazel Grove, South Africa
- **4.20pm – 4.40pm**
  - Reducing Cancer Risk with Healthy Food Choices and Physical Activity
  - **Terri Ades**, USA
- **4.40pm – 5.00pm**
  - A Nurse Led Community-Based and Culturally Sensitive Cancer Screening Program
  - **Mary Glavashevich and Rosemary Irish**, Canada
- **5.00pm – 5.20pm**
  - Effectiveness of Breast Self Examination in School Girl of Eastern Part of Nepal
  - **Kumari Rajani Deo**, Nepal
- **5.20pm – 5.40pm**
  - Cancer Prevention Screening Education With American Indian and Alaska Native Women in the United States (Pacific Northwest): Issues and Challenges in Conducting Transcultural/Translational Education Research
  - **C. June Strickland**, USA

### Concurrent Session B4 – Quality and Patient Safety
- **Chair:** Polly Mazanec, USA
- **4.20pm – 4.40pm**
  - How Do Cancer Patients Perceive the Quality of an Emergency Admission? An Evaluation of the Patient Experience Through the Acute Oncology Service
  - **Elaine Lennan**, UK
- **4.40pm – 5.00pm**
  - Providing High Quality Cancer Care: Achieving Person-Centred Care Through Integration of Standardized Screening For Distress, the Sixth Vital Sign
  - **Margaret Fitch**, Canada
- **5.00pm – 5.20pm**
  - Assessing Patient Satisfaction For Continuous Quality Outcome on a Medical/Radiation Oncology Unit
  - **Eleanor Miller & Linda Ramjohn**, Canada
- **5.20pm – 5.40pm**
  - Development of a Patient Self-Report Quality of Cancer Care Index
  - **Meinir Krishnasamy**, Australia

### Concurrent Session B5 – Models of Care Delivery
- **Chair:** Keith Cox, Australia
- **4.20pm – 4.40pm**
  - Acute Oncology Services; Developing Advanced Nurse Practitioners For Cancer Care
  - **Vicki Lewis**, UK
- **4.40pm – 5.00pm**
  - Building Partnerships With Community Institutions in Cancer Control: Nurses Leading the Way
  - **David Kinyanjui**, Kenya
- **5.00pm – 5.20pm**
  - Measuring the Outcomes of New Service-Oncology Palliative Nursing Call Center
  - **Mali Kusha**, Israel
- **5.20pm – 5.40pm**
  - Cancer Care Coordinator/Clinical Nurse Consultant: A Model of Advanced Practice Nursing
  - **Carla Thamm**, Australia

5.00pm – 6.00pm **Poster Session 1 Move-Out**

ELNEC Educational Workshop
The Unique Role of Oncology Nurses in Palliative Care
Dedicated to Educating Nurses in Excellent Palliative Care

The End-of-Life Nursing Education Consortium (ELNEC) project is a national education initiative to improve palliative care. The project provides undergraduate and graduate nursing faculty, CE providers, staff development educators, specialty nurses in pediatrics, oncology, critical care and geriatrics, and other nurses with training in palliative care so they can teach this essential information to nursing students and practicing nurses. The ELNEC project is administered by the American Association of Colleges of Nursing (AACN), Washington, DC and the City of Hope, Los Angeles, CA.

Objectives:
At the end of this presentation, participants will be able to:
- Describe the unique role oncology nurses play in providing and orchestrating excellent palliative care to patients with cancer
- Identify at least 3 barriers in providing quality care at the end of life
- Define hospice and palliative care
- Describe the ELNEC project and the role it plays in educating oncology nurses around the world

Presenters: Polly Mazanec, PhD, RN, ANP, FPCN, Assistant Professor at Francis Payne Bolton School of Nursing/Case Western Reserve, Cleveland, OH (USA), Pam Malloy, MN, RN, FPCN, ELNEC Project Director, American Association of Colleges of Nursing (AACN), Washington, DC (USA)

9.00am – 10.20am

10.05am – 4.15pm
Exhibits Open
Congress Hall Foyer

10.20am – 10.50am
Coffee/Tea Break with Exhibits and Poster Session 2
Congress Hall Foyer

10.50am – 12.10pm

### Conference Day 2: Tuesday 11 September 2012

#### 12.20pm – 1.20pm

**Nurse-Led Small Molecule Patient Education Program Lunch Session**

This Lunch Session is the official launch of the online ISNCC Nurse-Led Small Molecule Chemotherapy Patient Education Program. The online program was developed to address the international need for evidence-based patient education materials that are developed and distributed by nurses and enhance both adherence and self-care capacity of patients receiving small molecule therapies. ISNCC Leaders will conduct a live demonstration of the online learning modules and patient education print materials programs. Materials on the program will be distributed during the Lunch Session and nurses will be taught to use this important resource and refer it to their colleagues.

**Faculty:** Maryanne Hargraves, BSc, MBA, General Manager Clinical Services, Haematology and Oncology Clinics of Australia, AUSTRALIA

**Congress Hall 2**

#### 1.20pm – 1.50pm

**Coffee/Tea Break with Exhibits and Poster Session 2**

**Congress Hall Foyer**

#### 1.50pm – 2.40pm

**Plenary IV – Oncology Nursing Society (ONS USA) and ISNCC Collaborative Session**

**Chair:** Greta Cummings, CANADA

- **Medication Administration Safety: Averting the Perfect Storm**
  - Mary Magee Gullatte, PhD, RN, APRN, BC, AOCN, FAAN, USA

**Congress Hall 2**

#### 2.40pm – 3.30pm

**Robert Tiffany Lectureship**

**Chair:** Greta Cummings, CANADA

- **Cancer Nurses: In a World of Growing Inequity ... What Now?**
  - Meinir Krishnasamy, AUSTRALIA

**Congress Hall 2**

#### 3.30pm – 4.00pm

**Coffee/Tea Break with Exhibits and Poster Session 2**

**Congress Hall Foyer**

#### 3.30pm – 5.20pm

**Concurrent Session D1 – Innovation in Practice and Roles**

**Chair:** Wendy Wood, AUSTRALIA

**4.00pm – 4.20pm**

- **Understanding Care Complexity in Ambulatory Patients With Cancer to Inform Workforce Utilisation and Optimise Patient Outcomes**
  - Meinir Krishnasamy, AUSTRALIA

**Congress Hall 1**

**4.20pm – 4.40pm**

- **Implementing an Evidence-Based Risk Assessment Tool to Predict Chemotherapy-Induced Neutropenia in Breast Cancer Patients**
  - Li-Lu Chang, TAIWAN

**4.40pm – 5.00pm**

- **Engaging and Involving Teenagers in Cancer Service Development; An Exemplary Model**
  - Sam Smith, UK

- **A Case For Knowledge Translation: Using Qualitative Research Evidence to Support Smoking Cessation Among Families of Patients With Lung Cancer**
  - Joan Bottorff, CANADA

**5.00pm – 5.20pm**

- **Beyond Borders: Empowering and Inspiring Oncology Nurses in Lifelong Learning**
  - Mary Jane Esplen, CANADA

**Congress Hall 2**

#### 4.00pm – 5.20pm

**Concurrent Session D2 – Education: Nurse and Patient & Innovation in Practice and Roles**

**Chair:** Job Wekesa Wamukaya, KENYA

**4.00pm – 4.20pm**

- **Giving Voice to the Vulnerable: Advocacy Among U.S. Oncology Nurses**
  - Pamela Haylock, USA

**Congress Hall 2**

**4.20pm – 4.40pm**

- **Strengthening Oncology Nurses’ Voices in Ethically-Difficult Situations**
  - Carol Pavlish & Katherine Brown-Saltzman, USA

**4.40pm – 5.00pm**

- **Assessing the Impact of an Oncology Nursing Educational Intervention on Changes in Clinical Practice**
  - Jiahui Wong, CANADA

**5.00pm – 5.20pm**

- **Beyond Borders: Empowering and Inspiring Oncology Nurses in Lifelong Learning**
  - Mary Jane Esplen, CANADA

### LiveStrong Lunch Tutorial Session

**Title:** Breaking the Stigma and Silence: Training Healthcare Professionals in LMICs to Address Cancer Stigma, Myths, and Misconceptions

Over the past 5 years, the Lance Armstrong Foundation has focused on understanding and addressing cancer stigma and silence through its innovative Cancer Anti-Stigma Initiative. The first initiative of its kind addressing cancer stigma on a national scale, this project was conducted in South Africa and Mexico with implementing partner John Snow Inc. (JSI), and will be rolled out in China in 2013 with new local partners. Through mass media campaigns and targeted community engagement and training, our goal is to illustrate that cancer is survivable; that cancer survivors can lead healthy, productive lives during and after cancer; and to encourage both personal and public dialogue about the disease. This session will explore this issue of cancer stigma - an issue which presents a significant barrier to providing quality care for people affected by the disease- and how training healthcare providers and empowering them to become trainers in their own communities can raise awareness, reduce impacts of stigma, and improve quality of life for patients and their families.

**Learning Objectives:**

- Explain the concept of cancer stigma, differentiating between enacted and perceived stigmas
- Describe the patient perspective in dealing with cancer stigma at the individual, family and community levels through participation in an interactive module from the Lance Armstrong Foundation’s Train-the-Trainer curriculum
- Assess the opportunity to adapt this training model for your own communities

**Speakers:** Analuisa Ramirez, Community Coordinator, Comparte tu Historia; Rebekkah Schear, Program Manager, International Programs, Lance Armstrong Foundation; Christine Claypoole, Deputy Director, International Division, John Snow, Inc.
### Conference Day 3: Wednesday 12 September 2012 (continued)

#### 12.20pm – 1.20pm – concurrent session

**ICU Medical Lunch Tutorial Session**

Are you at risk for exposure to hazardous drugs? Hazardous medications are capable of causing serious effects to those exposed; including local reactions, cancer, organ toxicity, fertility problems, genetic damage, and birth defects. Regulation and guidelines for handling hazardous drugs exist, but exposures still occur. This program will examine the risk for exposure, exposure prevention, facility assessment for contamination and contamination management.

**Learning Objectives:**
- Summarize recent and historical evidence for healthcare worker exposure to hazardous drugs
- Identify work practices that present a risk to exposure to hazardous drugs
- Outline interventions, including proper use of equipment and devices
- Describe technological advances that include CSTD that may reduce the exposure and practical considerations such as cost and ease of use when selecting a device

*Faculty: Seth Eisenberg, RN OCN® Professional Practice Coordinator, Infusion Services, Seattle Cancer Care Alliance*

About our Supporters

**Amgen**

Amgen discovers, develops, manufactures, and delivers innovative human therapeutics. A biotechnology pioneer since 1980, Amgen was one of the first companies to realize the new science’s promise by bringing safe, effective medicines from lab to manufacturing plant to patient. Amgen therapeutics have changed the practice of medicine, helping millions of people around the world in the fight against cancer, kidney disease, rheumatoid arthritis, bone disease, and other serious illnesses. With a deep and broad pipeline of potential new medicines, Amgen remains committed to advancing science to dramatically improve people’s lives. For more information, visit www.amgen.com and follow us on www.twitter.com/amgen.

**Bard**

Bard is an innovator and market leader in the design and development of innovative vascular access products offering nine product lines in more than 800 configurations meeting virtually every vascular access need. This extensive product offering is further enhanced by comprehensive clinical, educational and operational programs designed to help customers address specific challenges within their institutions and enhance patient care.

**Bayer HealthCare**

Bayer HealthCare, a subgroup of Bayer AG with annual sales of EUR 17.2 billion (2011), is one of the world’s leading, innovative companies in the healthcare and medical products industry and is based in Leverkusen, Germany. The company combines the global activities of the Animal Health, Consumer Care, Medical Care and Pharmaceuticals divisions. Bayer HealthCare’s aim is to discover, develop, manufacture and market products that will improve human and animal health worldwide. Bayer HealthCare has a global workforce of 55,700 employees (Dec 31, 2011) and is represented in more than 100 countries. Find more information at www.bayerhealthcare.com.

**BD**

BD is a leading global medical technology company that develops, manufactures and sells medical devices, instrument systems and reagents. The Company is dedicated to improving people’s health throughout the world. BD is focused on improving drug delivery, enhancing the quality and speed of diagnosing infectious diseases and cancers, and advancing research, discovery and production of new drugs and vaccines. BD’s capabilities are instrumental in combating many of the world’s most pressing diseases. Founded in 1897 and headquartered in Franklin Lakes, New Jersey, BD employs approximately 29,000 associates in approximately 50 countries throughout the world. The Company serves healthcare institutions, life science researchers, clinical laboratories, the pharmaceutical industry and the general public. For more information, please visit www.bd.com/uk

**Bristol-Myers Squibb Foundation**

The mission of the Bristol-Myers Squibb Foundation is to help reduce health disparities by strengthening community-based health care worker capacity, integrating medical care and community-based supportive services, and mobilizing communities in the fight against disease.

The Foundation engages partners to develop, execute, evaluate and promote innovative programs to improve the health outcomes of populations disproportionately affected by type 2 diabetes in the United States, China and India; HIV/AIDS in Africa; cancer in Central and Eastern Europe; hepatitis B and C in Asia; and serious mental illness in the U.S.
The Cancer Nurses Society of Australia (CNSA) was founded in 1998 as a nursing specialist interest group as part of the Clinical Oncological Society of Australia (COSA). In 2013, CNSA will become an independent organisation for Cancer Nurses across Australia, reinforcing its position as the peak professional body for Nurses working with people affected by cancer. CNSA is committed to achieving and promoting excellence in cancer care through the professional contributions of nurses. As a membership based organisation CNSA has developed to support and serve Cancer Nurses in Australia. A National Executive Committee which comprises elected representatives from all States and Territories and a nationally elected President govern CNSA. Today there are 800 members throughout Australia.

The Czech Nurses Association is a professional, voluntary-based, nonprofit, apolitical organization with legal subjectivity. It has been established 20 years ago when then two smaller nursing organizations agreed to merge and create a bigger, stronger and united association.

It is the biggest professional organization of nurses and other professional workers in the Czech Republic. The Czech Nurses Association welcomes all nurses and other non-medical professionals working in health, social or education resorts and also working in other enterprises without regards to nationality or religion. It operates across the Czech Republic. It is a member of ICN and EFN.

The main objectives for the years 2011 to 2015:
- influencing professional education of health care professionals and supporting nursing research,
- strengthening the professional competencies of health care professionals and advocating for maintaining sufficient budget for health care and nursing care,
- anticipating and reacting to the needs of the population,
- preparing tools and methods to ensure quality and safety in health care,
- defending professional interests,
- and to transform CNA into a chamber of health care professionals.

Dale will demonstrate our fifth generation binder with new pre-paneled stretch materials and the post-surgical bra which offers support and compression after breast surgery. Visit us at our booth for free samples.

de Souza Institute is an innovative center of learning dedicated to improving cancer care by supporting excellence in oncology nursing. The Institute provides ongoing educational support, professional development and career counseling to Ontario nurses caring for patients and families dealing with cancer. Funded by the Ontario Ministry of Health and Long-Term Care, the Institute enhances nurses’ skills and knowledge by offering programs and workshops at no cost.

Nurses work towards a de Souza Designation, the new standard in cancer care nursing. To date de Souza Institute has reached over 4000 nurses in Ontario providing cancer care and in just over four years the Institute has resulted in a 40% increase in nurses achieving specialized certification in oncology.

Established in the UK in 1984, the European Oncology Nursing Society is an independent, not for profit pan-European organisation dedicated to the support and development of cancer nurses.
With our 20,000 members we develop projects that enhance nurses’ skills, provide opportunities for networking and sharing of good practice, as well as raise the profile of European cancer nursing by engaging with policy development.

These activities educate, support and empower cancer nurses, enabling them to provide the best possible patient care.

The EONS office is based in Brussels, Avenue Mounier 83, 1200, Belgium. To learn more about our society please go to: http://www.cancernurse.eu/

GSK Oncology is dedicated to the patients, physicians and communities pursuing the fight against cancer. At GSK Oncology, what defines us is our pledge to engage and work in concert with our communities. At GSK Oncology, our portfolio of medicines represents a heritage spanning more than five decades. Whether you are a physician, researcher, or patient, we aspire to know how GSK Oncology might engage with you in fighting the global pandemic known as cancer.

Hospira is the world’s leading provider of injectable drugs and infusion technologies. Hospira offers one of the broadest portfolios of generic acute-care and oncology injectables, biosimilar medicines and integrated infusion therapy and medication management solutions. Through its products, Hospira helps improve the safety, cost and productivity of patient care. The company is headquartered in Lake Forest, Illinois, United States and has more than 14,000 employees. The head office for Hospira in Europe, Middle East and Africa is in Royal Leamington Spa, UK. Learn more about Hospira at www.hospira.com.

ICU Medical is a worldwide leader in proprietary disposable medical products for vascular therapies. ICU’s commitment to patient and healthcare worker safety is evident in its innovative devices and unique manufacturing systems that produce custom intravenous therapy products in record lead times.

The Multinational Association of Supportive Care in Cancer (MASCC) is an international, multidisciplinary organization with members from six continents and over fifty countries. It operates in collaboration with the International Society of Oral Oncology (ISOO). Founded in 1990, MASCC is dedicated to research and education in all areas of supportive care for patients with cancer.

MASCC aims to promote professional expertise of supportive care through research and scientific exchange of ideas. Significant advances in cancer treatment have been made possible by the strides in supportive care. Because supportive care encompasses all aspects of care, it involves a variety of disciplines and specialists. Thus membership is open to all caregivers in supportive care in cancer.
There are more than 50 oral agents approved to fight cancer and 35% of drugs in the oncology pipeline are oral. Of these, 85% are targeted therapies.

The evolution of oral targeted therapies has significantly changed the delivery and impact of cancer care. How do we ensure that patients receive safe and quality care that is equivalent to the care they receive when treated in a clinic or hospital environment?

The ISNCC Cancer Patient Safety Framework workshop was developed to address the growing challenge of adherence to oral therapies and will allow participants to:

• Gain an understanding of the impact of oral therapies in oncology care;
• Discuss the risk factors associated with over and under adherence to therapy;
• Implement tools within their practice to promote adherence; and
• Equip themselves with the knowledge and tools to promote adherence to oral therapies.

Prior to the workshop, delegates will complete online learning modules and selected reading materials.

During the workshop Nurse Champions from Czech Republic, Hungary, and Poland will present the latest research on adherence to oral therapies (the workshop will be conducted in English with simultaneous translation to Czech, Hungarian and Polish).

Following the workshop, delegates will evaluate the potential for international synthesis and launch of an online version of the Cancer Patient Safety Framework Program for use by cancer nurses all over the world.

The Cancer Patient Safety Framework Preconference Workshop will take place at 9.00am – 5.00pm on Sunday, September 9, 2012 in Congress Hall 3 at the Hilton Prague Hotel, Czech Republic.

If you are interested in attending this exciting program, please email info@isncc.org. We look forward to seeing you in Prague!

This workshop is supported by an unrestricted educational grant from Novartis. Online version coming soon!
The BD PhaSeal™ – Closed drug transfer from vial to patient

The BD PhaSeal closed-system drug transfer device builds on two unique features: its double membrane technology, which creates a dry, leakproof connection and its airtight expansion chamber, which contains all aerosols, particles and vapours as well as equalizes the pressure in the vial.

With BD PhaSeal, your safety is never compromised. To help maximize that safety, we have designed BD PhaSeal to both operate simply and fit easily within your existing oncology healthcare procedures.

For more information on BD PhaSeal, visit us in the exhibit alley during the ICCN event, or at PhaSeal.com
