

**International Conference on Cancer Nursing (ICCN) WWW.ISNCC.ORG
Mentor Program 2017**

Please Attend the 'Meet Your Mentor' Session Monday 10th July 7:00am in the Garden A Room

The ICCN Mentor Program is a way for new attendees to build connections with experienced ISNCC members and receive knowledge and information about the conference as well as ISNCC.

Who are the Mentors?

ISNCC members volunteer to become mentors and provide guidance and insight as well as information to new attendees of ISNCC.

Who are the Mentees?

All new attendees to ICCN 2017 are welcome to become mentees and participate in the ICCN Mentor Program at no cost. New attendees are encouraged to become mentees in order to enhance their participation and make connections with other colleagues. You will be partnered with an experienced colleague who has participated at the ICCN in the past.

How and when do I meet my mentor?

The initial meeting with your mentor will be on Monday, 10 July 2017 at 7:00am in the Garden A Room. Both mentors and mentees are encouraged to attend this session to meet each other face to face. If you are unable to make the first session you may contact your mentor or mentee and arrange to meet on Tuesday, 11th July or Wednesday, 12th July between 7:00am – 8:00am in the Garden A Room. You will also have time to catch up with your mentor each day between 7:00am and 8:00am in the Garden A Room if you need a space to connect.

How do I get the best out of the Conference Programme?

Mentors will have suggestions and guidance for Mentees on how to get the best out of ICCN 2017. The programme also lists each day's sessions.

What are the essential sessions to attend?
