SAMPE CHINA 2017 CONFERENCE & EXHIBITION

2017 年 5 月 10-12 日，中国国际展览中心（老馆），北京
May 10-12, 2017 · China International Exhibition Center, Beijing

参展商邀请函

EXHIBITORS BROCHURE

特别赞助单位/ SPECIAL SPONSORS:

WELCOME

The 12th SAMPE CHINA is going to be held during May 10-12, 2017 in Beijing themed on "Advanced material leads the Innovation of Green Industry". The three-days exhibition and international academic conference will focus on the subject of advanced composite material structure designing, stable preparation of raw material, tooling designing, manufacturing process, mass production and quality control, testing and characterization, assembly, sustainable development, the current status of engineering and application and the international development trend. So as to promote advanced composite materials in the service of lighter, stronger, more efficient, more environmental protection of green industry innovation and development.

Beijing, gathering lots of aerospace composites manufacturing enterprises and research institutes. At the same time, it is a complete set with raw materials research and development, composites structure designing, process equipment, airworthiness, testing, and many other units. As the capital of China, traffic is not only convenient for the industry area such as aerospace, automobile, high-speed trains, wind power, medical equipment, sports goods, safety protection in the northeast, northwest, north China, central China, east China, southwest and other areas of the advanced materials users, at the same time will attract international buyers and traders from the Americas, Europe, Japan, Korea, India, Pakistan, Singapore, the Middle East, Taiwan and Hong Kong and other countries and regions.

Focus on platform building up for industry end user, academia, research of advanced materials and process engineering in particular advanced composite products and technology show, exchange and cooperation. The 11th SAMPE CHINA Conference & Exhibition was held during May 11-13, 2016 at Shanghai Everbright Convention & Exhibition Center. Total of 967 delegates attended the technical conference & sessions, participants mainly from domestic and foreign aviation, aerospace, defense, ships, high-speed trains, Automotive, wind energy and other production enterprises, research institutions and universities. 6 keynote presentations from China, USA, Japan, Denmark and Italy, more than 215 technical papers from 12 countries, 130 international exhibitors, and 9257 professional buyers visited the exhibition.

SAMPE CHINA 2017 is sincerely inviting all the international exhibitors involving the advances composite materials, process engineering and applications to exhibit at the show, for products marketing, technical communication and collaboration.

SPECIAL-SPONSOR

Chinese Society of Aeronautics and Astronautics

SPONSORS

SAMPE China Mainland Region

AVIC Composite Corporation Co., Ltd

Materials Engineering Committee of CSAA

China Chemical Fiber Association

Science and Technology on Advanced Composites Laboratory, BIAM

National Engineering Laboratory on Structural Carbon Fiber Composite Materials

CO-SPONSORS

SAMPE NA

SAMPE Europe

SAMPE Korea

SAMPE Japan

SAMPE Brazil

SAMPE Taiwan Chapter

ORGANIZER

Beijing UFT C+E Co., Ltd

SCHEDULE

Registration/Building-up Period: May 8-9, 2017

Conference & Sessions Period: May 10-12, 2017

Exhibiting Period: May 10-12, 2017

WHO EXHIBITS

1. Advanced Materials: Structural Composites, Bio-composites, Smart Composites, Functional Composites, Environmentally Friendly Composites, Thermoplastics, Graphene etc.
2. Raw and Supplementary Materials for advanced Composites: High-performance Reinforcing Fibers, Matrix Materials, Sandwich Materials (Foams and Honeycombs), Textile, Prepreg, Supplementary Materials in Forming, Adhesives, Coatings, etc.
3. Advanced Manufacturing, 3D Printing, Composite Manufacturing Technology and Process Equipments: Tooling deginging, Process Technology and Equipments, Preforming, Low-cost technology, etc.
4. Testing and Testing Methods of Composite Structures and Properties: NDE, Testing and Characterizing Methods of Mechanical, Chemical and Physical Properties, and the Instruments.
5. Applications: Aerospace, Defense, Marine, High-speed Train, Automotive, Green Energy, Electronics, and Sports & Leisure etc.
6. Digital Technology and CAE System of Composite Materials: designing, simulations, analysis and optimization, Digital Equipments, Database, etc.
7. Repair technology for advanced composite (Service, Process technology and equipment)
8. Recycle technology and equipment.

WHO VISITS

Buyers mainly from North American, Europe, Asia.

End users from aerospace, defence, marine, automobile, new energy, high-speed train, self-safety, architecture, sports and leisure industry.

Participants and attendees of SAMPE CHINA International Conference.

28% of visitors with purchasing decision-making capacity for the attractiveness of SAMPE activities.

Mainly purpose for visiting are purchasing, cooperation, technology communication and market.

COST of the EXHIBITION

Cost of participation:

- Package booth USD 270.00/sq.m (minimum area 12 sq.m.)

A standard package Booth includes: Panel walls on all closed sides of the stand, Fascia board with exhibitor's English and Chinese name thereon, One information counter and Two chairs, Two fluorescent light, One waste paper basket, Carpeted flooring.

- Raw Space USD 240.00/sq.m, Indoor Raw Space (minimum area 36 sq.m.)

Special designs, layout and fitting may be arranged by exhibitor at additional cost by direct application to our Official Booth Contractor.

NOTE: If you should choice of corner, you must get a 20% raise to pay.

□ Special Discount for Package booth (Full Payment date)

Before August 20, 2016	Members	USD 200.00/sq.m
	Non- Members	USD 220.00/sq.m
Before November 30, 2016	Members	USD 220.00/sq.m
	Non- Members	USD 240.00/sq.m

The Service

The organizer provide the following service to all exhibitors

Free listing in the official exhibition directory; General cleaning of exhibition area; 24-hour on-side security; Stand construction and dismantling (for Package booth only); Assistance with business conducting.

Optional supplies & services include:

Advertisement in the Exhibition Directory; Exhibition on-side advertisement; Another Advertisement; Extra electrical; Freight forwarding; Preparation of artwork; designs and souvenirs etc. Printing of promotional literature; Travel and accommodation; Official invitation letter for visa application; IDD or DDD lines for telephone; facsimile; Manpower including interpreters; attendants; reception girls.

Participation procedures

- 1、 Fill out the Application Form and return to the organizer. Application by fax is also acceptable. Please note that the application deadline is April 10, 2017.
- 2、 No space/booth will be allocated until payment is received. Booth allocation is on the“First-come, First-served” basis.
