DEAR COUNTY DIRECTOR OF SOCIAL SERVICES

ATTENTION: FOSTER CARE PROGRAM MANAGERS, SUPERVISORS, AND WORKERS

SUBJECT: FOSTERING HEALTH NC

The American Academy of Pediatrics and the Child Welfare League of America recognize children in foster care as children with special health care needs. Fostering Health NC, an initiative led by the state chapter of the American Academy of Pediatrics (AAP), recently published a set of tools designed to improve health outcomes and reduce the cost of care for the foster population. Developed through a collaborative process and informed by a 40-member interdisciplinary team, Fostering Health NC’s tools focus on leveraging available technology to improve care coordination, aligning care with AAP-recommended standards, and addressing barriers to information sharing.

Examples of the documents contained in the library include:

Health Summary Forms: These forms offer alternatives to DSS Forms 5243 and 5244 for supporting the AAP-recommended Initial Visit, 30-day Comprehensive Visit, and recurring Well Visits for children entering foster care. The forms may be downloaded and adapted to suit local needs and preferences. These forms are also available in fillable pdf format.

Sharing Health Information for Treatment: Guidance from the UNC School of Government explaining how North Carolina health care providers may share protected health information with other health care providers about a child in the custody of a local Department of Social Services without written permission. Importantly, this guidance should reduce the need for back-and-forth coordination between DSS offices and providers to obtain releases of information.

Sharing Social Services Information: Highlights existing policies that address sharing social services information between county Departments of Social Services and health care providers.

If you have any questions regarding the Fostering Health NC initiative or to request technical assistance, please contact Teresa Strom, DSS Child Welfare Program Policy Consultant at 919-527-6344 / teresa.strom@dhhs.nc.gov or Adam Svolto, Fostering Health NC Program Director, at 919-673-2768 /
adam@ncpeds.org. Fostering Health NC is greatly interested in your feedback regarding the usability of these resources and any recommended edits. It is the Division’s hope that collaboration between health care providers and local child welfare agencies will result in improved outcomes for the children in our care.

Sincerely,

Kevin Kelley, Section Chief
Child Welfare Services
