Honoring Our Past, Creating Our Future

Call for NODAC 2013 Educational Sessions

On behalf of the NODAC 2013 Planning Committee, we invite you to submit a proposal to present an educational session! NODA is approaching 40 years as an association, and in those years we have made great strides as practitioners in the field of orientation, retention, and transition. As we travel to San Antonio, TX this November, we will take cues from a city rich in history and culture to inspire our membership by Honoring Our Past and Creating Our Future.

NODAC 2013 will Honor Our Past by highlighting major advances in both our field and association, allowing past NODA leadership the chance to share their reflections, and revisiting the work of our Outstanding Research Award winners. We will then collectively Create Our Future through education, networking, and benchmarking.

Through focused dialogue and educational sessions, we hope that attendees of NODAC 2013 will gain insights in the following areas:

- Trends in Orientation, Retention, and Transition Programs
- Best Practices in Research and Assessment
- Special Student Populations (e.g. Veterans, Transfers, Adult Learners, International Students, Hispanic Serving Institutions)
- Extended Orientation
- Parent/Family Programs

Applications are due on April 15, 2013

Things to keep in mind as you create your proposal:

- Your program should be grounded in theory, research, experience, or best practice.
- Your program should have clearly articulated goals and outcomes as well as a defined outline.
- Your program should be relevant to the field of orientation, transition, and retention.
- Your program should meet at least one focus area of NODAC 2013.

Additional Information:

- All educational sessions at NODAC 2013 will be in 50-minute time blocks.
- Each program proposal will be reviewed by at least four members of the association in a blind review before final selection.
- Submitters will have the option of seeing the comments from their program reviewers.
- Program Reviewers will be solicited later this spring.

If you have any questions, please do not hesitate to contact us. We look forward to receiving your submissions!

Korrin Anderson, Florida International University
John Michael Pantlik, University of Delaware

Educational Sessions Co-Chairs, NODAC 2013
