Date: 10/7/2017  
Time: 9:45 AM  
CE Contact Hours: 1.25  
Pharm Hours: 0.08

Session Description

Overview of Latino, immigrant, and refugee health and quality of life factors in Oregon.

Learning Objectives

Upon completion of this session, the learner will be able to:

1. Describe and summarize the current demographics, population projections, education disparities, achievement and opportunity gaps, political incorporation, civic engagement, and entrepreneurship/ownership aspects of Latinos’ experiences in Oregon.
2. Summarize and define the main components of a culturally tailored community based research approach used to develop breast cancer screening programs in Muslim refugee communities.
3. Identify and recognize issues and concerns around the prevalence of chronic pain in refugee patients from the Middle East and Europe and how chronic pain is presented with somatic complaints.

Disclosures

Conflict of Interest for Presenter:

• The presenter(s) of this session declare no conflict of interest. As faculty/presenter for this activity, presenter attests that they will provide the best available evidence for this content and present information fairly and without bias.
