Introduction

As student pharmacists, our most important duties are to build a solid knowledge base and to develop habits for lifelong learning. What we take away from school will not only affect our own futures, but the health and well-being of our patients. The Scholastics Committee of the Gamma Theta Chapter has worked hard to ensure that our Brothers take these sentiments seriously by regularly reinforcing important concepts and promoting academic achievement. In addition to our traditional projects, we have provided new ways to recognize our top exam scorers on a monthly basis and have collaborated with our Professional Development Committee to implement a new study hall program. In the very near future, we also plan to start clinical case workshops and competitive quiz reviews that focus on integrated therapeutics. We hope that these new programs will aid our Brothers to improve and achieve new heights.

-Kenni Nakatsu, #222

The Scholastics Committee of Gamma Theta serves the important purpose of promoting academic success and achievement within our Chapter. A few things that we do to promote academic excellence include having members set GPA goals, hosting review sessions, and by holding weekly study hours. We celebrate academic success with our Akamai Cookies event and newly established “Yay for A’s!” program. The Scholastics Committee is also one of the reasons for Phi Delta Chi’s strong presence within the Daniel K. Inouye College of Pharmacy. This is due to our open-invite P1 exam review sessions and our highly anticipated semi-annual Faculty and Staff Appreciation Breakfasts.

The Scholastics Committee has provided me with the opportunity to grow as a leader, as I have had no leadership experience prior to becoming its Co-Chair. I really enjoy helping others academically, so it has been a perfect learning experience for me thus far. My proudest accomplishment as Co-Chair, so far, includes being able to successfully plan the majority of our events while working alongside my Brothers. I hope to improve the overall quality of our already established events, while also being able to think of new ways to improve the overall academic standing of our Brothers. Some new ideas that I hope to implement include establishing an annual top 100 prescribed drugs competition, as well as some type of program that encourages submitting applications for scholarships. I would also like to include our pledges in more of our events since it would benefit future Brothers of the fraternity.

-Rene-Scott Chavez, #224

Scholastics Committee Members: Sean Abreu, Trenton Aoki, Sydney Barney, Matt Chen, Nicole Chin, Christopher Diaz, Diana Doan, Sara Evanko, Kelli Goo, Alexander Hilo, Garret Hino Jr., Tyler Hirokawa, Trish Huynh, Abraham Jose, Shaun Lasky, Kevin Lei, Kelsea Mizusawa, Jennifer Nguyen, Kara Paulachak, David Pham, Miles Roberts, Nadine So, Lucilla Tong, Paolo Truong, Hoa Vo, Preston Young, Zi Zhang

OVERVIEW

REVIEW SESSIONS
November 1, 2015 - Biochemistry Review (37 attended, 4 Brothers volunteered)
February 9, 2016 - Biostatistics Review (44 attended, 4 Brothers volunteered)
March 8, 2016 - Biostatistics Review (42 attended, 4 Brothers volunteered)
September 9, 2016 - Immunology Review (53 attended, 5 Brothers volunteered)
September 15, 2016 - Biochemistry Review (63 attended, 5 Brothers volunteered)
October 9, 2016 - Immunology Review (49 attended, 5 Brothers volunteered)
October 30, 2016 - Biochemistry Review (44 attended, 5 Brothers volunteered)

AceAAAEE STUDY HOURS
11 Study Sessions Held (September 2016 to October 2016)
59 Active Brothers Attended
18 Pledges Attended
166 Total Hours of Studying

Promoting Scholastic Improvement & Achievement

AceAAAE
By Katrina Kutter, #195
Gamma Theta Chapter believes that in order to be effective leaders in pharmacy we must first establish our credibility and knowledge base as students. Academic success will ensure later success in our careers and healthcare delivery, and we strive to teach our Brothers this value. We encourage our Brothers to study hard and reward them when they achieve their goals, but we wanted to provide opportunities for them to improve scholastically. Thus, AceAAAE was born. AceAAAE is a study program that allows Brothers and pledges to dedicate time to their studies through either individual studying, group studying, or tutoring. Due to the nature of our campus, study space is limited and what space is available is often full or crowded. As a part of the AceAAAE program, we reserve and open classrooms that are typically locked during the evening to provide an alternative place for our Brothers to study. These opportunities occur an average of two nights per week for a time period of about four hours each. While we encourage Brothers to focus first on their own study needs, we also approve group studying to enhance learning and tutoring to fulfill the motto of our fraternity. So far, this semester we have held eleven AceAAAE sessions. We hope to continue this program in an effort to improve both as a Chapter and future pharmacy leaders.

RESIDENCY TALKS
By Kelli Goo, #191
At the end of each year, P4 Brothers who are accepted into residency programs graciously share their experiences and provide guidance to fellow Brothers aspiring to follow in their footsteps. This past Spring, Brothers Walter Domingo (#107), Bryce Fukunaga (#108), Micah Kim Han (#111), Jairus Mahoe (#116), and Katrina Spinola (#210) gave a presentation on their experiences and provided insight on different programs to about 30 Brothers. The informal and intimate session included discussion about the application process, the Match, interview tips, and a Q&A session.

STALL DRUGS
By Matt Chen, #186
Since it was first conceived three years ago by Brother Lindsey Takahara (#95), Stall Drugs have been a favorite amongst students. This project places informative flyers on the inside of lavatory stall doors and allows for relevant class information to be integrated into the campus environment. Each handout contains relevant material applicable to students, regardless of class standing. More specifically, these posters display brand and generic names, common dosage ranges, and indications of the Top 200 Rx Drugs taught in the P1s Self-Care class in addition to contraindications, side effects, and counseling pearls pertinent to the P2s Integrated Therapeutics course. Brothers work diligently to update the information each month; as a result, all students at DKICP benefit from the PDC Stall Drugs.

REVIEW SESSIONS
IMMUNOLOGY SPOTLIGHT By Rene-Scott Chavez, #224
Gamma Theta annually hosts review sessions for the P1 class in order to help them with the transition from undergraduate school to our pharmacy school curriculum. Upperclassmen Brothers (P2s and P3s) volunteer their time to put together review presentations that cover important key concepts from class lectures. The immunology review session was the first review of the semester. The Scholastic Committee first contacted and received permission from the class instructor in order to hold the review session. We then divided the work by assigning a different chapter to each participating Brother. The content of our presentation answered most of the exam study guide questions. We had a very good turnout for this event in which more than half of the P1 class attended (53 students). We encouraged active learning by including iClicker questions. The P1 class really appreciated this review session and we have received nothing but positive feedback. All Brothers who helped with this event did their part and were awesome presenters. This review session was a success and I am positive that the rest of them will be as well.

BIOCHEMISTRY SPOTLIGHT By Sara Evanko, #189
The Scholastics Committee held its second review session of the semester on September 15, 2016. The format for this review session was quiz-bowl style to assist the Class of 2020 with their upcoming Biochemistry exam. It was designed to encourage students to critically think and apply their base knowledge of the subject material through a fun, engaging game. There was a really great turnout with about 60 students who actively participated in the event.

Scholastics Report

ΦΔΧ Gamma Theta Chapter | Page 2
AKAMAI COOKIES
By Rene-Scott Chavez, #224

“Akamai Cookies is an event held by our Chapter to celebrate academic success. "Akamai" is the Hawaiian word for smart, so "Akamai Cookies" translates to "Smart Cookies". Brothers set a GPA goal at the beginning of the semester and also state whether or not they have met their GPA goal from the previous semester. Individuals who met their previous goals are recognized and awarded with cookies that have been decoratively packaged. A group picture is then taken so that these individuals can show off their hard-earned cookies!

Gamma Theta decided to add a few changes to Akamai Cookies starting this semester. We have set minimum GPA goals in order to hold Brothers of our Chapter to higher academic standards and to encourage further academic excellence. We have also decided to let our pledges participate by setting their goals through our Worthy Master at Arms. Pledges who successfully meet their GPA goals will be recognized next semester after being initiated as Phi Delta Chi Brothers.

Total # of Brothers participated: 43
Total # Brothers who met their goals: 30

YAY FOR A’S!
By Kerri Nakatsu, #222

“Yay for A's!” is a new initiative implemented by the Scholastics Committee that seeks to recognize and reward academic achievement. By scoring A's on exams, Brothers are entered into a monthly raffle and become eligible to win a mystery prize! This event encourages both our Active Brothers and pledges to set their expectations high and strive for success. By recognizing Brothers on a monthly basis, scholastic achievement remains on the forefront of our minds. This program also allows the Scholastics Committee to keep track of which classes Brothers are struggling in, in order to provide the personalized help needed to succeed. AAAE!

Total # of eligible Brothers: 42
September and October recipients: Jae Sung Shim (#248), Hoku Richie (Pledge)

STUDENT CHOICE AWARD FOR TEACHING
By Kelli Goo, #191

At the end of each academic year, the students of our College are given the opportunity to select one faculty from the Pharmaceutical Sciences Department and one faculty from the Pharmacy Practice Department to receive the College of Pharmacy Excellence in Teaching Awards. In May 2016, our Faculty Advisor, Dr. Aaron Jacobs (#62) was recognized by the Classes of 2016 and 2017 and Graduate Brother, Dr. Supakit Wongwiwatthanunukit (#250), was recognized by the Class of 2017. This prestigious award is given annually to honor faculty who have consistently shown their ability to construct, emphasize, and articulate ideas in a manner which promotes student learning and enthusiasm. The Brothers of Gamma Theta show their appreciation to all faculty and staff of DKICP by hosting a semi-annual Faculty and Staff Appreciation Breakfast at the end of each semester.

ALUMNI RECOGNITION
By Kelli Goo, #191

Each month, our Worthy Information and Technology Specialist (previously known as Webmaster) selects Alumni Brothers to recognize as Alumni of the Month. These Brothers are chosen based on their contribution to our Chapter and our profession or to congratulate them on achieving a goal. Once chosen, the Alumni Brothers answer a few question and provide words of wisdom to Collegiate Brothers. For the month of October, Gamma Theta recognized four Alumni Brothers: (1) Dr. Anissa Marzuki (#118), who began her PGY1 residency with Safeway in Phoenix, AZ. (2) Dr. LaTasha Riddick (#91), who began her PGY1 residency at Maine Medical Center in Portland, ME. (3) Dr. Jarred Prudencio, who completed his PGY1 residency at UC Davis Medical Center in San Diego, CA and has now returned to DKICP as a tenure-tracked assistant professor. (4) Dr. Shadi Obeidi (#90), a community pharmacist and dedicated Brother in Anchorage, AK.
Outcomes of Scholastic Achievement

CHAPTER GPA
39 Brothers made Dean’s List Fall 2015 (38%)
60 Brothers made Dean’s List Spring 2016 (59%)
Epsilon Class GPA: 3.59 for Fall 2015, 3.72 for Spring 2016, 3.56 Cumulative
Zeta Class GPA: 3.47 for Fall 2015, 3.62 for Spring 2016, 3.5 Cumulative
Eta Class GPA: 3.23 for Fall 2015, 3.38 for Spring 2016, 3.32 Cumulative
Gamma Theta Average Cumulative GPA: 3.46

• Abraham Jose, Kelsea Mizusawa: Comparative effectiveness of the didactic experiential training programs on knowledge, confidence, and empathy of students enrolled in doctor of pharmacy program”. HPhA Annual Meeting, Apr 2016.

KEEP BURNING THE LIGHT OF WISDOM

By Paolo Truong, #215, The Rho Chi Society Delta Iota Chapter President

During my first year here at DKICP, I remember being very scared and worried about my studies. I was always nervous about taking tests and I felt that I had a weak undergraduate background. What I found to help the most was that the brothers of PDC were always there to inspire me to pursue academic excellence. After attending the first PDC review session for biochemistry, I felt more confident in myself and continued to push myself. Eventually, I was able to get into the groove of how to handle pharmacy school and I believe that it was all due to the motivational comments from my brothers in PDC.

One other thing I love about PDC is that we are constantly trying to improve. Gamma Theta consistently delivers effective review sessions to the campus as a whole and rewards scholastic achievement to Active Brothers. With the new installation of "Yay for A's"!, a program that rewards brothers for achieving good marks on a test, I feel that the Gamma Theta chapter continues to grow in a positive direction.
