International Forum for Drug & Alcohol Testing
Thursday, Nov. 8th and Friday, Nov. 9th, 2012

Universitá Cattolica del Sacro Cuore – Rome, Italy

Fourth Annual International Forum for Drug and Alcohol Testing Conference

www.IFDAT.com
Welcome to IFDAT

This will be the fourth forum following conferences held in Sao Paolo, Brazil, then Barcelona, Spain and last year Houston, USA. The International Forum for Drug and Alcohol Testing is a non-profit organization dedicated to the advancement of global employee screening systems and processes. It provides a platform for experts from the drug and alcohol testing industry, as well as related disciplines, to meet and discuss various topics relating to the current and future developments of international employee screening.

Why Should You Attend?
The international employee screening market is growing rapidly as more and more businesses expand their operations globally. As the need to screen employees on an international basis grows, so does the need to improve and identify opportunities for this complicated process. The IFDAT conference provides a forum for employers and industry providers to hear and discuss best practices, to learn about new developments, like changes in policies and technology, and to find ways to improve efficiencies in the international employee screening process.

Professionals who work in health and safety, human resources, or anyone that manages a drug-free workplace policy will be introduced to the challenges of testing in different regions of the world. They will be enlightened on laws and practices that impact employee testing in those regions and will discover ways to enhance their company’s employee screening programs.

IFDAT conference attendees will interact with their global counterparts and meet providers of international drug testing services who can help with the implementation of global drug-free workplace policies and related processes.

What Will You Learn?
IFDAT conference attendees will hear from prominent professionals from all over the world. These speakers will address topics that include:

- Worldwide testing
- Alternate testing methods
- Legal challenges in testing
- International MRO services
- New technology in testing
- Background checks
- Testing in the aviation industry
- And much more!

Sincerely,
Per Björklöv, Chair IFDAT
The Università Cattolica del Sacro Cuore in Rome, Italy will host the 2012 IFDAT conference. Founded by Father Agostino Gemelli in 1921, it is now the largest privately-owned Catholic university in Europe. The university established a presence in Rome with the institution of the Faculty of Medicine and Surgical Medicine in 1958 and the adjoining Agostino Gemelli General Hospital, which was officially opened in 1964.

Today, the Rome campus has around 5,000 students enrolled in various degree programs (medicine, healthcare, biotechnology, healthcare business and business management) and 1,300 students enrolled in post-graduate programs.

On the top floor of the hospital an apartment is reserved for the Pope.

Università Cattolica del Sacro Cuore
Largo Agostino Gemelli, 8, 00168 Roma, Italy

"IFDAT is by far the best international forum for networking with professionals from around the world on the topic of drug and alcohol testing. By covering a range of subjects, from new technologies to overcoming regulatory challenges, IFDAT helps facilitate individuals to effectively manage programs across borders. I especially enjoy how this forum has a relaxed atmosphere that enables you to really connect with decision makers from across the industry. I am already looking forward to IFDAT 2012 in Rome, Italy.”

Bill Corl
Chief Operations Officer
Omega Laboratories, Inc.
