Alberto Ascherio, MD, DrPH  
Professor of Epidemiology and Nutrition, Harvard T.H. Chan School of Public Health  
Professor of Medicine, Harvard Medical School  
Boston, MA

Ethan A. Benardete, MD PhD  
Director of Cerebrovascular Surgery (Open and Endovascular)  
Department of Neurosurgery  
Baylor Scott and White Health  
Temple, TX

David Forneda, MD PhD  
Stanford University Medical Center  
Professor of Neurology & Radiology  
Stanford, CA

James C. Britta, MD  
Director of Global Research, Clinical Innovation and Research Institute  
Memorial Hermann Hospital-TMC  
Memorial Hermann Research Institute  
Houston, TX

Cindy D. Marshall, MD, MBA  
Medical Director, Baylor AT&T Memory Center  
Baylor University Medical Center at Dallas  
Dallas, TX

Umesh Oza, MD  
Program Director, Diagnostic Radiology Residency  
Core Faculty, Department of Radiology  
Baylor University Medical Center at Dallas  
Dallas, TX

Claudia Paez-Peña, MD  
Medical Director for Research  
Baylor AT&T Memory Center  
Baylor Neuroscience Center  
Baylor University Medical Center at Dallas  
Dallas, TX

Marwan Assar, MD  
Director, Cardiac Electrophysiology Fellowship Training Program  
Associate Professor Medicine, Texas A&M Health Science Center College of Medicine  
Baylor University Medical Center at Dallas  
Dallas, TX

Kate E. Dougherty, MD  
Assistant Professor Neurosurgery  
Baylor University Medical Center at Dallas  
Dallas, TX

RJ Watts, II, JD  
Law Office of R. J. Watts, II  
Dallas, TX
The 7th Annual Stroke and Neurological Disease Conference will address critical issues related to decision making for and treatment of stroke patients. The optimal care for stroke patients is ever changing as we pursue new avenues in stroke prevention, therapy and research. This conference will feature experts from emergency medicine, neurology, neurosurgery, internal medicine, cardiology and interventional neuroradiology. With the goal to update on the latest patient care recommendations, these specialists will cover the newest advances in the treatment of stroke in a format that allows for timely application of proven protocols.

Discussion will include treatment of acute ischemic stroke, hemorrhagic stroke, neuroimaging, cutting edge medical management and advanced endovascular treatments for stroke, advanced stroke care delivery and the diagnosis and management of vasculitis. Each of these topics will be covered in the context of case presentations and panel discussions that will allow for audience interaction with the faculty. The conference lectures are designed to enhance dialogue on the current controversies in the treatment of stroke.

This year, there is also a specialized content and lecture addressing dementia and Alzheimer’s disease. Experts in the field will discuss the diagnosis, imaging and management of patients with dementia, memory loss and Alzheimer’s disease. The day includes breakout sessions to allow participants to select the most applicable content. In fact, participants can choose afternoon breakout sessions to either stroke or dementia topics.

Given the urgency and complexity of treating stroke and dementia patients and the positive impact of a multidisciplinary team approach to care, this conference will provide strategies for the implementation of integrated care. The day will wrap up with an ethics lecture (including ethics CME credit) on the issues related to estate planning and chronic neurological diseases.

The goal to update on the latest patient care recommendations, these specialists will cover the newest advances in the treatment of stroke in a format that allows for timely application of proven protocols.

STROKE & NEUROLOGICAL DISEASE CONFERENCE
Saturday, May 21, 2016

AGENDA

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
<tbody>
<tr>
<td>7:30 AM</td>
<td>Introductions</td>
</tr>
<tr>
<td>8:00 AM</td>
<td>Pirklslesnik Stroke Treatment using a Mobile Stroke Unit</td>
</tr>
<tr>
<td>8:30 AM</td>
<td>Combination Stroke Interventions for Central Aneuveres</td>
</tr>
<tr>
<td>9:00 AM</td>
<td>Cerebrovascular Stroke - Could It Be Your Fault???</td>
</tr>
<tr>
<td>9:30 AM</td>
<td>Combination Stroke Management and Stroke Surgery, Stenting, or, Medical Management, Gas Vals?</td>
</tr>
<tr>
<td>10:00 AM</td>
<td>Brain and Brain Imaging, Nutrition, Atherosclerosis, and Alzheimer’s Disease</td>
</tr>
<tr>
<td>10:30 AM</td>
<td>Update on Stroke Systems of Care in Texas</td>
</tr>
<tr>
<td>11:00 AM</td>
<td>Impact of Diet and Nutrition as Stroke Prevention and Recovery</td>
</tr>
<tr>
<td>12:00 PM</td>
<td>Cognitive and Memory, The Influence of Diet and Nutrition</td>
</tr>
<tr>
<td>12:30 PM</td>
<td>Lecture: Estate Planning and Chronic Neurological Diseases</td>
</tr>
<tr>
<td>1:00 PM</td>
<td>Stroke Breakout</td>
</tr>
<tr>
<td>1:30 PM</td>
<td>Combined Diagnoses and Management of Vasculitics and Vasculopathy</td>
</tr>
<tr>
<td>1:40 PM</td>
<td>Imaging of Vasculitic and Vasculopathy</td>
</tr>
<tr>
<td>2:00 PM</td>
<td>Thrombolysis: Enhance the Benefits of Thrombolysis or Thrombectomy</td>
</tr>
<tr>
<td>2:30 PM</td>
<td>Minimally Invasive Surgery for Intracerebral Hemorage</td>
</tr>

REGISTRATION FEES & INFORMATION

The A. Webb Roberts Center for Continuing Medical Education of Baylor Health Care System, Dallas, designates this live activity as a maximum of 7.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The A. Webb Roberts Center for Continuing Medical Education of Baylor Health Care System, Dallas, is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

REGISTRATION FEES

- $145 (Make checks payable to A. Webb Roberts Center)
- $75
- $50
- $45

CONTINUING MEDICAL EDUCATION

The 7th Annual Stroke and Neurological Disease Conference, Saturday, May 21, 2016

EDUCATIONAL OBJECTIVES

BASIC SCIENCE
- Identify major advances in key areas of cutting-edge research and technology in subarachnoid hemorrhage, acute ischemic stroke, intracerebral hemorrhage, serious medical conditions and other chronic neurological diseases.

CLINICAL SCIENCE
- Transition emerging scientific science to clinical practice in patients with ischemic and hemorrhagic stroke and memory disorders.
- Identify major advances in key areas of cutting-edge research and technology in subarachnoid hemorrhage, acute ischemic stroke, intracerebral hemorrhage, serious medical conditions and other chronic neurological diseases.

POPULATION SCIENCE
- Recognize emerging trends in the distribution of hemorrhagic and ischemic stroke, memory disorders and Alzheimer’s disease and their impact on public health.
- Evaluate the impact of new diagnostic and therapeutic strategies on health costs and clinical outcomes in patients with ischemic and hemorrhagic stroke and memory disorders such as Alzheimer’s disease.

TRANSLATIONAL SCIENCE
- Understand the adaptation and testing of fundamental scientific discoveries to the diagnosis and treatment of ischemic and hemorrhagic stroke as well as dementia and Alzheimer’s disease in patients.

PA - NP - RN - Allied Health
Fellow - Resident - EMT - Paramedic
