DA 15-61
January 15, 2015

WIRELESS TELECOMMUNICATIONS BUREAU REMINDS NATIONWIDE WIRELESS SERVICE PROVIDERS OF OBLIGATION TO RELEASE INFORMATION REGARDING CONSUMER SIGNAL BOOSTERS BY MARCH 2, 2015

WT Docket 10-4

On February 20, 2013, the Federal Communications Commission (Commission) released the *Signal Boosters Report and Order*, in which it adopted new technical, operational, and registration requirements for Signal Boosters.¹ Pursuant to the *Signal Boosters Report and Order*, by March 2, 2015,² all nationwide wireless providers³ must publicly indicate their status regarding consent for each Consumer Signal Booster that has received Commission certification, as listed in Attachment 1 of this *Public Notice*.⁴ This obligation is intended to “provide the Commission with valuable information regarding providers’ treatment of Consumer Signal Boosters, including the level of consumer access. This information will inform our decision whether it is necessary to revisit our Consumer Signal Booster authorization mechanism.”⁵

For each listed Consumer Signal Booster FCC ID,⁶ wireless providers should publicly indicate whether they:

- (1) consent to use of the device;

¹ Amendment of Parts 1, 2, 22, 24, 27, 90 and 95 of the Commission’s Rules to Improve Wireless Coverage Through the Use of Signal Boosters, *Report and Order*, WT Docket No. 10-4, 28 FCC Rcd 1663 (2013) (*Signal Boosters Report and Order*).

² The *Signal Boosters Report and Order* required the disclosure be made on March 1, 2015, which is a Sunday. As such, pursuant to 47 C.F.R. § 1.4(j), the actual filing date is the next business day, Monday, March 2, 2015.

³ A nationwide network covers a sufficiently large percentage of the population such that it would be inappropriate to categorize it as a regional network. See Implementation of Section 6002(b) of the Omnibus Budget Reconciliation Act of 1993; Annual Report and Analysis of Competitive Market Conditions With Respect to Mobile Wireless, Including Commercial Mobile Services, *Fifteenth Report*, 26 FCC Rcd 9664, 9694, n.54 (2011).

⁴ *Signal Boosters Report and Order*, 28 FCC Rcd at 1677 ¶ 34. You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection unless it displays a currently valid OMB control number with this notice. This collection has been assigned OMB control number 3060-1189. See 5 C.F.R. § 1320.5(b).

⁵ *Signal Boosters Report and Order*, 28 FCC Rcd at 1677 ¶ 34.

⁶ Wireless providers must report specifically with respect to each FCC ID in Attachment 1. As a courtesy, the Wireless Telecommunications Bureau also has provided the associated model names and numbers to the best of its ability through an informal search the Office of Engineering and Technology’s equipment authorization database (<http://transition.fcc.gov/oet/ea/fccid/>). Signal Booster manufacturers, however, may use other model names and/or numbers, and wireless providers should not rely solely on the model names and numbers we have provided in Attachment 1.

- (2) do not consent to use of the device; or
- (3) are still considering whether or not they will consent to the use of the device.

We will deem a wireless provider subject to this *Public Notice* to have complied with its reporting obligation if it files its status in this docket, WT 10-4. Providers also may publically disclose their status in another way of their choosing. Further, we recognize that all four nationwide providers have consumer booster information and registration mechanisms on their websites, and encourage them to also make this information available to consumers through their websites.

For further information, contact Joyce Jones of the Mobility Division, Wireless Telecommunications Bureau at (202) 418-1327, or via e-mail at joyce.jones@fcc.gov.

Action by the Chief, Mobility Division, Wireless Telecommunications Bureau.
