

INTRODUCING THE AAW APP

AAW's flagship publication, *American Woodturner* (AW), is now available in an interactive digital format that can be read on iOS (Apple iPad, iPhone, etc.) and Android devices.

The AAW App is free and issues of *American Woodturner* are free for AAW members, but you'll need to install the AAW App on your device to view the issues. But before you begin, make sure you have a strong and consistent Internet signal.

The following pages are instructions to guide you through the AAW App installation and digital *American Woodturner* issue download processes. Please follow the instructions for your device carefully.

BEFORE YOU BEGIN: IMPORTANT NOTES

- Members will have access to new *AW* issues using the AAW App only as long as their AAW membership is active. Once their membership expires, they will continue to have access to *AW* issues downloaded during their membership, however they will not be able to download new issues published after their membership expired.
- If a member changes their AAW username or AAW email address, it may take up to two business days before the new information is synched with the AAW App.
- Issues of *American Woodturner* are free to AAW members with proper login. The AAW App will display available digital issues of the *American Woodturner* journal available for purchase by non-members. **DO NOT SELECT ANY OF THEM.** If you accidentally purchase an issue, you will need to seek a refund from the App Store or Google Play Store. AAW is not able to issue refunds.
- Safety and protection of AAW members' private personal information is paramount. Therefore, the AAW App does not directly interface with the AAW website and does not access or utilize AAW members' passwords. This approach reduces the risk of a potential data breach.
