Abstract
The abstract helps NW Convention Staff to gauge the appropriateness of the presentation for the Convention. While most research based posters should include objectives, methods, results and the conclusion; we like to include posters that highlight innovative practice, use of technology, and disease state information. Therefore, the standard format may be adjusted as needed. Abstracts do not need to be inclusive of final date still being gathered. Abstracts must be less than 300 words.

General Information
The Poster Session will be on Friday, June 2nd 10:00 a.m. to 7:00 p.m., running concurrently with the CE programs and the Exhibit Hall. Posters will be evaluated on poster design, research methods or practice description, and project impact. Poster board display space will be provided. Entrants are responsible for bringing their own display materials to mount and set up posters. An author of the poster should be present at the convention to answer questions, and to be eligible for winning a prize in their category.
